Dictionnaire Historique Libert Georges Bischoff:

Brexit in History Beatrice Heuser, 2019-08-01 This is a stimulating work with an original perspective on the most important existential question in the UK since the Second World War Rather than focusing on the minutiae of the on going crisis Beatrice Heuser considers Brexit in the light of the dialectic of Empire sovereignty and co operative syntheses throughout history The result is an impressive synthesis of the evolution of power relationships within and between political entities Professor Michael Newman author of Democracy Sovereignty and the European Union Are Europeans hard wired for conflict Given the enmities that wracked the Greek city states or the Valois Bourbons and Habsburgs it seems undeniable The Holy Roman Empire promised peace but collapsed before it could deliver it while rival rulers counter balanced its power by stressing their own sovereign independence Yet since Antiquity there has also been a yearning for the rule of law the Pax Romana For seven centuries Europe s philosophers and diplomats have sought to build institutions of compromise between the unrestricted competition of nation states and the universal monarchy of the old empires a confederation whose representatives would meet to resolve differences We have seen these ambitions at least partially realised in a progression of multilateral solutions the Congress System the League of Nations the United Nations and the European Union But with the United Kingdom s vote to leave the EU state sovereignty seems to be pushing back against two centuries of travel in the other direction The Brexit result shows that distrust of a greater Europe and fierce insistence on state sovereignty remain live issues in today s politics To explain recent events Beatrice Heuser charts the history and culture underpinning this age old tension between two systems of international affairs

ihrer Bestimmung gefaßt. C'est le projet hégélien. La France Edward Ousselin, 2018-11-30 La France is a comprehensive overview of French society and culture covering events and their consequences from the beginning of the Third Republic to the present day. Using a comparative lens, this vital text contrasts French culture with Canadian and American cultures, expanding readers' understanding of different sociocultural practices. La France includes discussions on political, social and cultural topics touching on government and the European Union, the Francophone world and diversity within France, education, feminism, the family and media. Featuring keywords, follow-up questions, quizzes and QR codes that link to online resources, this engaging read is perfect for undergraduate and graduate courses on French society and culture. On trouvera dans ce manuel universitaire une introduction générale à la société et la culture françaises ainsi qu'une révision des événements historiques et de leurs conséquences depuis les débuts de la III^e République. À travers une approche interculturelle, les étudiants sont encouragés à comparer les normes et les pratiques sociales françaises avec celles de leur propre pays en tenant compte de leurs propres présupposés. La France aborde des sujets politiques, économiques et socioculturels, y compris les institutions gouvernementales, l'Union européenne, le monde francophone, les droits des femmes, la diversité ethnique et religieuse, le système éducatif et les médias. Les ressources pédagogiques incluent des mini-tests et des questions qui pourront servir comme points de départ de discussions ou de débats. Des codes QR permettent l'accès direct des ressources en ligne. Dictionnaire historique & biographique de la Suisse Marcel Godet, Heinrich Türlér, Victor Attinger, 1926 **Dictionnaire historique et biographique de la Suisse**, 1926 Crise, violence, dé-civilisation Hamit Bozarslan, 2019 N'cessaire le savoir appliqué la crise et la violence peut s'avérer dépourvu de toute capacité explicative et devenir parfaitement frustrant. L'exigence scientifique comme l'urgence citoyenne imposent certes le savoir comme un devoir, toute société est obligée de comprendre ce qu'elle produit, y compris l'irrationnel ou l'horreur. Mais comment nier qu'étudier l'horreur c'est déjà reconnaître a posteriori notre impuissance. L'analyse critique est-elle d'une grande utilité quand elle ne dispose pas de moyens d'action? Ce livre s'intéresse à trois notions : la crise, la violence et la dé-civilisation. Elles constituent les trois angles morts de l'histoire du monde tant la connaissance scientifique que l'on peut en avoir ne permet ni de les comprendre pleinement ni de les combattre efficacement. Elles ont pourtant une dimension universelle et une histoire longue. Il importe de continuer à se pencher sur ces trois notions car la crise ne conduit pas nécessairement au chaos, la violence et la destruction et la dé-civilisation ne relèvent d'aucune fatalité. Une crise peut aussi présenter une chance inédite pour une société de développer une conscience critique sur son passé et se projeter dans un avenir radicalement différent de son présent. En étudiant ces questions politiques, historiques et éthiques fondamentales, Hamit Bozarslan revient sur l'histoire du monde et s'interroge sur son avenir.
