Crosscutting Social Circles Testing A Macrostructural Theory Of Intergroup Relations:

Crosscutting Social Circles Joseph E. Schwartz, 1997-01-01 Crosscutting Social Circles describes a theory of groups relations to each other and tests the theory in the 125 largest metropolitan areas in the United States. The focus is on the influence social structure exerts on intergroup relations. Blau and Schwartz show how role relations are influenced by how people are distributed among social positions. Examples are a community's racial composition, division of labor, ethnic heterogeneity, income inequality, or the extent to which educational differences are related to income differences. Blau and Schwartz test their theory by considering its impact on such structural conditions as intermarriage, an important form of intergroup relations. The authors derive the main principles of previously formulated theories of intergroup relations and present them in simpler and clearer form. They empirically test the power of the theory by analyzing its ability to predict how social structure affects intermarriage in the largest American cities where three fifths of the American population live. They selected cities because population distribution of a small neighborhood might be affected by casual associations among neighbors; it is much more sociologically interesting if population distribution also affects mate selection in a city of millions. Unlike most theories that emphasize the implications of such cultural orientations as shared values and common norms, this volume focuses on the significance of various forms of inequality and heterogeneity. As one of the few books that supplies a large scale empirical test of implications of a theory, Crosscutting Social Circles serves as a model. The new introduction by Peter Blau reviews the origins and impact of the book. It will be of immense value to sociologists, psychologists, and group relations specialists.

The Legacy of Anomie Theory Freda Adler, William S. Laufer, 2020-03-06 This sixth volume of *Advances in Criminological Theory* is testimony to a resurgent interest in anomie strain theory which began in the mid 1980s and continues unabated Contributors focus on the new body of empirical research and theorizing that has been added to the anomie tradition that extends from Durkheim to Merton The first section is a major 75 page statement by Robert K Merton examining the development of the anomie and opportunity structure paradigm and its significance to criminology *The Legacy of Anomie Theory* assesses the theory's continuing usefulness explains the relevance of Merton's concept of goals means disparity as a psychological mechanism in the explanation of delinquency and compares strain theory with social control theory A macrosociological theoretical formulation is used to explain the association between societal development and crime rates In other chapters anomie is used to explain white collar crime and to explore the symbiotic relationship between Chinese gangs and adult criminal organizations within the cultural economic and political context of the American Chinese community

Class and the Color Line Joseph Gerteis, 2007-10-24 This ms studies class and race boundaries and interracial political coalitions in two significant 19th century social movements the Knights of Labor and the Populist movement **Race in the Schools** Judith R. Blau, 2003 Judith Blau's disturbing study presents strong evidence that our schools assumed by many to be an equalizing force in U S society are in fact racialized settings that reproduce white advantage to the detriment of all students Drawing on rich longitudinal databases Blau explores the values activities and educational experiences of a sample of young people born a decade or so after the 1964 Civil Rights Act was signed into law She focuses on topics that are both important in students lives and central in schooling attitudes toward integrity and cheating getting into trouble interracial relations learning and going to college Her remarkable findings challenge many assumptions long held by researchers and policymakers *Race in the Schools* combining an accessible style sophisticated methodology and clear policy relevance is a seminal study of the pervasive consequences of race in the U S education system **Living in Networks** Claire Bidart, Alain Degenne, Michel Grossetti, 2020-10-22 Innovative study examining how relationships and personal networks evolve

throughout life and how these connect individuals and society Analysis of Change Uwe Engel, Jost Reinecke, 2012-05-07 No detailed description available for *Analysis of Change* *Social Capital and Sport Organisations* Richard Tacon, 2021-10-21 Drawing on primary research within voluntary sports clubs in the UK and secondary analysis of the wider international literature on social capital this text focuses on the micro processes of social capital development and how they play out in specific social settings In so doing it adds to existing research by developing a rich contextualised process based view of social capital in action Critically reviewing theoretical and empirical literature on social capital the book highlights the key current debates The empirical core of the book draws on ethnographic observation over 18 months at voluntary

sports clubs in the UK including in depth interviews with sports club members and organisers The text explicitly seeks to set this empirical work in its wider context by considering the findings in relation to other international studies of social capital in both sports clubs and other types of organisation The book draws on international research from a whole range of countries UK USA Australia Canada Norway Denmark Netherlands Japan Vanuatu Czech Republic Germany and many others The book establishes a transferable process based understanding of how social capital develops both within sports clubs and beyond This is an illuminating reading for policymakers practitioners and researchers with an interest in the sociology of sport sport development sport management sport policy social theory social policy or social networks *Current Perspectives on Immigrant Integration in Europe and Beyond* Boris Heizmann, Reinhard Schunck, 2022-08-02
