

The background of the book cover is a complex, abstract composition. It features a large, light-colored spiral in the upper left corner, composed of many small, overlapping circles. The rest of the cover is filled with a dense, textured pattern of overlapping, translucent shapes that resemble leaves or petals, creating a sense of depth and complexity. The overall color palette is a range of purples, from deep, dark tones to lighter, almost white highlights.

Complexity Theory And The Philosophy Of Education:

Complexity Theory and the Philosophy of Education Mark Mason, 2009-02-23 A collection of scholarly essays Complexity Theory and the Philosophy of Education provides an accessible theoretical introduction to the topic of complexity theory while considering its broader implications for educational change Explains the contributions of complexity theory to philosophy of education curriculum and educational research Brings together new research by an international team of contributors Debates issues ranging from the culture of curriculum to the implications of work of key philosophers such as Foucault and John Dewey for educational change Demonstrates how social scientists and social and education policy makers are drawing on complexity theory to answer questions such as why is it that education decision makers are so resistant to change how does change in education happen and what does it take to make these changes sustainable Considers changes in use of complexity theory developed principally in the fields of physics biology chemistry and economics and now being applied more broadly to the social sciences and to the study of education

Complexity Theory and the Politics of Education

, 2010-01-01 Complexity theory has become a major influence in discussions about the theory and practice of education This book focuses on a question which so far has received relatively little attention in such discussions which is the question of the politics of complexity The chapters in this book engage with this question in a range of different ways Whereas some contributions make a case for the promotion of complexity in education others focus more explicitly on questions concerning the reduction of complexity in and through education The chapters do so using theoretical historical and empirical arguments paying attention to a range of different educational settings including early childhood education school education post compulsory education lifelong learning and work based education and focusing on different aspects of these practices such as curriculum pedagogy assessment architecture and management Taken together the chapters not only reveal the potential of complexity for engaging with questions about the politics of education in new and different ways They also provide examples of a more reflexive engagement with the politics of complexity in education itself
