Problem Solving with Python Michael D. Smith, 2026-01-20 An innovative new way to teach computational thinking and problem

solving that makes programming accessible to anyone Problem solving with computation has become a basic literacy required of modern life but the traditional way we teach students to code doesn't work for everyone This innovative textbook provides a highly engaging alternative approach Problem Solving with Python is a hands on introduction to computational thinking useful computer science concepts and the art of computer programming where skills and ideas are introduced in service of solving an interesting problem Each chapter begins with an ambiguous problem description drawn from everyday life that resolves with a piece of working code Gradually progressing in difficulty the book's three act structure charts a clear developmental path from novice to skilled programmer Michael Smith first presents the basics of programming through repeated application of a worklist algorithm allowing the reader to become comfortable in problem decomposition and fundamentals before attempting more complicated algorithms and approaches He then shows how to solve real world problems using the power of abstraction algorithms and the right data structures Finally the exercises in the book's last act fully transition the reader from programmer to problem solver Based on the author's popular class at Harvard this accessible textbook builds conceptual understanding through practical skills development to enable anyone to master the what and how of computational thinking Prioritizes the development of computational thinking Does not assume students are intrinsically motivated to learn programming Emphasizes active learning through real world problems and case studies Is suitable for students and self learners from all backgrounds Includes coverage of data representation arithmetic and logical operations algorithms networks computability operating systems and compilers memory systems and security Offers extensive ancillary resources
