Applied Mechanics Reviews, 2004

Computer Algebra Recipes Richard Enns, George C. McGuire, 2013-03-07 Computer algebra systems have the potential to revolutionize the teaching of and learning of science Not only can students work thorough mathematical models much more efficiently and with fewer errors than with pencil and paper they can also work with much more complex and computationally intensive models Thus for example in studying the flight of a golf ball students can begin with the simple

parabolic trajectory but then add the effects of lift and drag of winds and of spin Not only can the program provide analytic solutions in some cases it can also produce numerical solutions and graphic displays Aimed at undergraduates in their second or third year this book is filled with examples from a wide variety of disciplines including biology economics medicine engineering game theory physics chemistry The text is organized along a spiral revisiting general topics such as graphics symbolic computation and numerical simulation in greater detail and more depth at each turn of the spiral The heart of the text is a large number of computer algebra recipes These have been designed not only to provide tools for problem solving but also to stimulate the reader's imagination Associated with each recipe is a scientific model or method and a story that leads the reader through steps of the recipe Each section of recipes is followed by a set of problems that readers can use to check their understanding or to develop the topic further

Computer Algebra Recipes Richard H. Enns, George C. McGuire, 2007-12-31 This book presents a large number of computer algebra worksheets or recipes that have been designed using MAPLE to provide tools for problem solving and to stimulate critical thinking No prior knowledge of MAPLE is necessary All relevant commands are introduced on a need to know basis and are indexed for easy reference Each recipe features a scientific model or method and an interesting or amusing story designed to both entertain and enhance concept comprehension and retention
