Boundaries of Personal Property Arianna Pretto-Sakmann, 2005-08-15 This study of the boundaries of personal property has an inward and an outward perspective with the intellectual emphasis on the latter The inward looking inquiry considers shares as items of personal property Nowadays those who think of themselves as shareholders often stand one step removed from the share itself They hold what this book christens a sub share This part of the book asks in what sense shares and sub shares can be conceived to be things how those things are alienated and how they are protected in litigation The outward looking inquiry then asks whether personal property can be contemplated as a sub category of the law of things and more particularly as the law of all things locatable in space alienable or vindicable in court The outward inquiry considers three boundaries Within the law of property the line between realty and personalty proves relatively uncontroversial the second boundary lies between property and obligations the third between wealth and non wealth The second boundary is the main concern Respect for it necessitates a differentiation between the law of property in the strict sense and the all encompassing law of wealth even where the consequence might be to exclude shares and sub shares from the law of property In maintaining the value of careful proprietary taxonomy and in reviving the underlying concepts on which it depends this book opposes modern scepticism as to the possibility and desirability of precision in legal classification In these commitments it could fairly be styled a post modern study of personal property Winner of the SLS Birks Prize for Outstanding Legal Scholarship 2006 Second Prize [The Climb to Investment Excellence](#) Ana Marshall, 2023-11-01 A go to resource for institutional investors and asset allocators seeking practical advice from a proven leader in the field In [The Climb to Investment Excellence](#) A Practitioner's Guide to Building Exceptional Portfolios and Teams celebrated institutional investor and asset allocator Ana Marshall draws on her 36 years experience in finance and investment to deliver a comprehensive and practical blueprint for a resilient and high performing institutional portfolio as well as a reliable roadmap for the management of its stakeholders You'll discover ready to deploy strategies and advice that's informed by evidence and tried and tested in the real world helping you to build and manage your team construct a portfolio set your goals select the right managers and more You'll also find Explorations of three themes that consistently define the careers of successful investors and asset allocators strategy and planning trust and risk management The critical factors every investor and allocator should consider before making any sort of impactful decision Examinations of the importance of resilience in the face of bad fortune or mistakes A can't miss resource for institutional

Capital Returns Edward Chancellor, 2016-05-04 We live in an age of serial asset bubbles and spectacular busts Economists policymakers central bankers and most people in the financial world have been blindsided by these busts while investors have lost trillions Economists argue that bubbles can only be spotted after they burst and that market moves are unpredictable Yet Marathon Asset Management a London based investment firm managing over 50 billion of assets has developed a relatively simple method for identifying and potentially avoiding them follow the money or rather the trail of investment Bubbles whether they affect a whole economy or merely a single industry tend to attract a splurge of capital spending Excessive investment drives down returns and leads inexorably to a bust This was the case with both the technology bubble at the turn of the century and the US housing bubble which followed shortly after More recently vast sums have been invested in mining and energy From an investor s perspective the trick is to avoid investing in sectors or markets where investment spending is unduly elevated and competition is fierce and to put one s money to work where capital expenditure is depressed competitive conditions are more favourable and as a result prospective investment returns are

higher This capital cycle strategy encourages investors to eschew the simple growth and value dichotomy and identify firms that can deliver superior returns either because capital has been taken out of an industry or because the business has strong barriers to entry what Warren Buffett refers to as a moat Some of Marathon s most successful investments have come from obscure sometimes niche operations whose businesses are protected from the destructive forces of the capital cycle Capital Returns is a comprehensive introduction to the theory and practical implementation of the capital cycle approach to investment Edited and with an introduction by Edward Chancellor the book brings together 60 of the most insightful reports written between 2002 and 2014 by Marathon portfolio managers Capital Returns provides key insights into the capital cycle strategy all supported with real life examples from global brewers to the semiconductor industry showing how this approach can be usefully applied to different industry conditions and how prior to 2008 it helped protect assets from financial catastrophe This book will be a welcome reference for serious investors who looking to maximise portfolio returns over the long run Investment Leadership and Portfolio Management Brian D. Singer,Greg Fedorinchik,2009-10-26 An industry leader candidly examines the role of investment leadership in portfolio management Investment Leadership investment philosophy process and portfolio construction communication and transparency and ethics and integrity Leadership issues in investment firms are a serious concern and this book addresses those concerns Details the strong correlation between excellence in investment leadership and excellence in portfolio management Written by a group of experienced professionals in the field including the Chairman of the CFA Institute Board of Governors Understanding how to operate in today s dynamic investment environment is critical Investment Leadership Portfolio Management contains the insights and information needed to make significant strides in this dynamic arena
