Capitalism And Christianity The Possibility Of Christian Personalism:

Capitalism and Christianity Richard C. Bayer,1999 This iconoclastic book proposes market systems as a means of promoting justice and personal development Work Out Your Salvation D. Glenn Butner,2024 Work Out Your Salvation demonstrates how participation in markets forms our moral character perceptions actions and ideas It argues that such formation varies based on market designs and our interactions within them Undermining simplistic ideas about capitalism Butler lays bare which features of markets make us better and which make us worse Modern Catholic Social Teaching Kenneth R. Himes,2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s Rerum Novarum The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical Caritas in Veritate and one on Pope Francis s encyclical Laudato Si An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching **Research in Ethical Issues in Organizations** Michael Schwartz,Howard Harris,2013-08-02 Research in Ethical Issues in Organizations Vocation and the Politics of Work Jeffrey Scholes,2013-03-08 Since Martin Luther vocations or callings have had a close relationship with daily work It is a give and take relationship in which the meaning of a vocation typically negotiates with the kinds of work available and vice versa at any given time While vocation language still has currency in Western culture today s predominant meaning of vocation has little to do with the actual work performed on a job Jeffrey Scholes contends that recent theological treatments of the Protestant concept of vocation both academic and popular often unwittingly collude with consumer culture to circulate a concept of vocation that is detached from the material conditions of work The result is a consumer friendly vocation that is rendered impotent to inform and if necessary challenge the political norms of the workplace For example he classifies Rick Warren s concept of purpose in his best selling book The Purpose Driven Life as a functional equivalent of vocation that acts in this way Other popular uses of vocation along with insights culled from traditional theology and consumer culture studies help Scholes reveal the current state of vocations in the West Using recent scholarship in the field of political theology he argues that resisting commodification is a possibility and a prerequisite for a political vocation if it is at all able to engage the norms that regulate and undermine the pursuit of justice in many modern workplaces What Is a Person? Christian Smith,2010-09-15 What is a person This fundamental question is a perennial concern of philosophers and theologians But

Christian Smith here argues it also lies at the center of the social scientist's quest to interpret and explain social life. In this ambitious book, Smith presents a new model for social theory that does justice to the best of our humanistic visions of people, life, and society. Finding much current thinking on personhood to be confusing or misleading, Smith finds inspiration in critical realism and personalism. Drawing on these ideas, he constructs a theory of personhood that forges a middle path between the extremes of positivist science and relativism. Smith then builds on the work of Pierre Bourdieu, Anthony Giddens, and William Sewall to demonstrate the importance of personhood to our understanding of social structures. From there, he broadens his scope to consider how we can know what is good in personal and social life and what sociology can tell us about human rights and dignity. Innovative, critical, and constructive, *What Is a Person?* offers an inspiring vision of a social science committed to pursuing causal explanations, interpretive understanding, and general knowledge in the service of truth and the moral good.

Theory and the Disappearing Future Tom Cohen, Claire Colebrook, J. Hillis Miller, with a manuscript by Paul de Man, 2011-11-10 Paul de Man is often associated with an era of high theory, an era it is argued may now be coming to a close. This book, written by three leading contemporary scholars, includes both a transcript and facsimile print of a previously unpublished text by de Man of his handwritten notes for a lecture on Walter Benjamin. Challenging and relevant, this volume presents de Man's work as a critical resource for dealing with the most important questions of the twenty-first century and argues for the place of theory within it. The humanities are flooded with crises of globalism, capitalism, and terrorism; contemporary narratives of financial collapse, viral annihilation, species extinction, environmental disaster, and terrorist destruction. Cohen, Colebrook, and Miller draw out the implications of these crises and their narratives, and reflecting on this work by de Man, explore the limits of political thinking, of historical retrieval, and the ethics of archives and cultural memory.

Research on Professional Responsibility and Ethics in Accounting Cynthia Jeffrey, 2018-04-13 *Research on Professional Responsibility and Ethics in Accounting* is devoted to publishing high-quality research and cases that focus on the professional responsibilities of accountants and how they deal with the ethical issues they face.

Battleground: Religion Daniel L. Smith-Christopher, 2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion? Whether it's a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment, almost all of the most contentious matters that impact today's society involve people's deeply held religious beliefs. *Battleground: Religion* helps clarify these complex topics by examining how various religious beliefs and practices impact current political, social, and cultural debates. Each of the approximately 100 entries examines a hot-button issue, from war and peace to the culture wars, and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum. Students will come away from *Battleground: Religion* with a better understanding of the issues that they will be encountering for years to come. Each entry includes a bibliography or resources for further information.

God & Money Charles McDaniel, 2007 *God & Money* confronts the current dominant right-wing Republican evangelical

Christian view that unfettered market driven capitalism and Christian faith and values are compatible Drawing on such ethical luminaries as Reinhold Niebuhr G K Chesterton Peter Berger and John Paul II author Charles McDaniel shows that to reverse the current decline in public morality capitalism must be balanced by enduring religious and moral values Challenging the captivity of Christian culture by free market global capitalism McDaniel joins other Christian ethical visionaries in advocating a redemptive economy one that champions individual human dignity true community and the moral regeneration of cultural traditions in vital dialectic with the inevitable market capitalism of the contemporary world
