*Capitalism from Below* Victor Nee, Sonja Oppenheimer, 2012-06-19 Over 630 million Chinese escaped poverty since the 1980s the largest decrease in poverty in history Studying 700 manufacturing firms in the Yangzi region the authors argue that the engine of China's economic miracle private enterprise did not originate at the top but bubbled up from below overcoming initial obstacles set up by the government

**Reform and Regulation of Economic Institutions in Afghanistan** Haroun Rahimi, 2022-10-21 Taliban's return to power in August of 2021 caused everyone to ask why the two decades of institution building in Afghanistan failed This book investigates the root causes of failed reforms in an important area of reform trade and credit institutions It explains why the efforts to reform and regulate the economic institutions in Afghanistan failed and what we can learn from their failure It draws on more than eighty interviews with Afghan merchants business leaders money dealers and government officials in five major provinces of Afghanistan to identify the barriers to access to credit and to understand the performance of formal institutions banks and their informal counterparts This book finds that Afghan merchants were often unable to benefit from the offerings of formal institutions for three reasons a highly volatile business climate uncertain contract enforcement and an unsupportive property rights system Several informal institutions have emerged that alleviate some of the credit constraints on Afghan merchants These informal institutions include risk sharing trade credit operations money dealers short term working capital loans Gerawee and Sar qufli Although these informal institutions have helped Afghan merchants survive they are unable to support economic growth This book argues that countries like Afghanistan should solve their institutional dilemma by adopting an approach which the author calls Grounded Institutional Reform Using this approach a country would formalize existing informal institutions a development that would vastly increase their effectiveness While this book focuses on credit and trade in Afghanistan the analysis of formalizing the informal can easily be extended to solve other types of economic problems in similarly situated countries This book should be of great interest to scholars policymakers and development workers in the field of law finance and development

Strategic Action Of Private Entrepreneurs In Contemporary China** Thomas Heberer, Gunter Schubert, 2020-04-22 This book provides a fresh perspective on the political agency of private entrepreneurs in contemporary China Most Chinese scholarship describes this group as being politically acquiescent due to systematic co optation by the party state This book however argues that private entrepreneurs should be understood and analytically conceptualized as a strategic group that makes use of different formal and informal channels to safeguard and expand its interests though so far it has not challenged the current regime State business relations in contemporary China should thus be understood not in terms of mere clientelism but as a dynamic symbiosis in which private entrepreneurs contribute substantially to policy and institutional change This book is based on several years of comparative empirical fieldwork across China With its rich and unique qualitative data and insights this volume contributes significantly to our understanding of the political behaviour and impact of private entrepreneurs in contemporary China      **World Scientific Reference On Innovation, The (In 4 Volumes)** , 2018-03-20 This multi volume set covers a wide range of topics on innovation which are all of great interest to academics policymakers university administrators state and regional economic development officials and students Two unique features of the volume are the large body of global evidence on innovation presented and its consideration of the following timely and important topics in innovation cybersecurity open innovation the globalization of R D and university technology transfer Innovation is a topic of great importance in many fields in business administration such as management strategy operations

**Compressed Development** D. Hugh Whittaker, Timothy Sturgeon, Toshie Okita, Tianbiao Zhu, 2020-09-15 This book proposes a new way to approach comparative international development by focusing on time and timing in economic and social development The UK industrialized over two centuries and then started to de industrialize in the late 1960s Today the most rapid developers experience aspects of industrialization and de industrialization simultaneously It is no longer clear that industrialization offers the path of growth it once did industrialization has become thin Demographic and social challenges that earlier developers faced sequentially now come at the same time Rapid growers experience compression most acutely but the spatial and temporal fusing of past and present is widespread affecting high middle and lower income countries alike Timing refers to the differences in historical periods in which development takes place The geopolitical institutional and technological environment for countries recently integrated into the global economy has been vastly different from that of the preceding postwar decades of embedded liberalism although it does contain echoes of the first globalization and first financialization a century ago The first era of liberalism did not end well and the second is similarly foundering on the rocks of nationalism and protectionism as it is being battered by a global pandemic The authors propose an interdisciplinary conceptual framework based on co evolving state market and organization technology dyads

which will help readers make sense of contemporary development across multiple societies sectors and geographies and provide a template for historical comparison
