Capitalism's Last Stand? Walden Bello, 2013-06-13 Walden Bello is the world's leading no nonsense revolutionary Naomi Klein author of *The Shock Doctrine*. In this eye opening and often scathing book Walden Bello provides a forensic dissection of contemporary capitalism's multiple crises. Trenchant but constructive Bello's analysis of the collapse of the global real economy covering such issues as the Wall Street meltdown, the disintegration of the Greek economy and the rise of China emphasizes the ever more pressing need to engage in a radical process of deglobalization towards a decentralized pluralistic world system. Only then will we be able to construct a fairer and more equitable society. A stirring call to arms for all those interested in global economic justice.

Revenge Capitalism Max Haiven, 2020-05-20 Capitalism is in a profound state of crisis. Beyond the mere dispassionate cruelty of ordinary structural violence it appears today as a global system bent on reckless economic revenge. Its expression found in mass incarceration, climate chaos, unpayable debt, pharmaceutical violence and the relentless degradation of common life. In *Revenge Capitalism* Max Haiven argues that this economic vengeance helps us explain the culture and politics of revenge we see in society more broadly. Moving from the history of colonialism and its continuing effects today, he examines the opioid crisis in the US, the growth of surplus populations worldwide and unpacks the central paradigm of unpayable debts both as reparations owed and as a methodology of oppression. *Revenge Capitalism* offers no easy answers but is a powerful call to the radical imagination.

After '08 Stephen McBride, Rianne Mahon, Gerard W. Boychuk, 2016-08-04 The 2007-08 financial crisis marked a turning point for social policy. World leaders were forced to

take a position Should they entrench neo liberal policies in response to the crisis Or should they implement alternative measures to challenge economics as usual After 08 examines how global institutions such as the World Bank International Monetary Fund and International Labour Organization as well as nation states around the world responded to the crisis Comparing the experience of Europe Asia Africa Latin America and North America contributors gauge the extent to which the neo liberal landscape has shifted since the onset of the financial crisis and explore the directions social policy has taken Did the response to the crisis follow a similar trajectory across countries and regions Or did the diversity in national experiences produce a diversity of policy responses And if so where did alternatives to neo liberalism emerge Crises of Imagination, Crises of Power Max Haiven, 2014-03-13 Today when it seems like everything has been privatized when austerity is too often seen as an economic or political problem that can be solved through better policy and when the idea of moral values has been commandeered by the right how can we re imagine the forces used as weapons against community solidarity ecology and life itself In this stirring call to arms Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable Looking at the decline of the public sphere the corporatization of education the privatization of creativity and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements Haiven provides a powerful argument for creating an anti capitalist commons Capitalism is not in crisis it is the crisis and moving beyond it is the only key to survival Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond it **Global-Local Tradeoffs, Order-Disorder**
