## Critical Thinking Questions

- Complete the table in Model 2 by writing in the missing molecular formulas.
- What do the molecules in a given column (1 or 2, above) have in common with the other molecules in that column?
- What do the molecules in a given column NOT have in common with the other molecules in that column?
- All the structures in a given column are constitutional isomers of one another, but the structures in column 1 are not constitutional isomers of structures in column 2. Based on this information, write a definition for the term constitutional isomers.
