0 **Chefsache Gesundheit II** Peter Buchenau, 2015-12-03 Das Buch ist eine Fortsetzung des bereits bei Springer Gabler erschienenen ersten Bandes Chefsache Gesundheit Neue Autoren führen das Thema weiter fort Der demografische Wandel und ein damit verbundener Mangel an leistungsfähigen Führungskräften der stete Druck sich an einem globalisierten Markt zu beweisen die immer komplexer werdenden Prozesse der internen Administration all dies stellt Unternehmen und Mitarbeiter vor enorme Herausforderungen Umso wichtiger wird es in diesem Zusammenhang die wertvolle Ressource Mensch zu schützen und dessen Arbeitskraft zu erhalten Gesundheit spielt hierbei eine große Rolle Gesunde Mitarbeiter leisten mehr sind produktiver und effektiver Gesundheit wird zur Chefsache und zum Wirtschaftsfaktor in Unternehmen wie es auch der kommende Kondratieff Zyklus vorsieht 14 Coaches Berater und Trainer beschreiben bezogen auf ihr jeweiliges Fachgebiet welchen Einfluss der Faktor Gesundheit künftig auf Unternehmen haben wird und geben praktische Hinweise für einen zeitgemäßen Umgang mit diesem wichtigen Thema **Ursachen sportlicher und wirtschaftlicher Krisen in professionellen Fußballorganisationen** Sebastian Faulstich, 2022-05-16 Profifußball ist ein komplexes Phänomen mit vielfältigen Wechselwirkungen zwischen sportlichen und wirtschaftlichen Faktoren weswegen einige Klubs trotz der erheblichen Umsätze immer wieder in sportliche und wirtschaftliche Krisen geraten Welche Faktoren für diese Krisen ausschlaggebend sind und durch welche Faktoren langfristiger Erfolg generiert werden kann wird in diesem Werk erforscht Dazu stellt der Autor eine Vielzahl wirtschaftswissenschaftlicher Ansätze zur Erforschung von Erfolgsfaktoren und Krisenursachen in Unternehmen und Sportorganisationen vor und prüft diese anschließend an realen Fällen Das Buch schließt mit Hypothesen und Handlungsempfehlungen zur Krisenprävention Das Buch richtet sich gleichwohl an Forschende und Praktikerinnen und beleuchtet ein bis dato wenig beachtetes Thema das infolge der Diskussionen um die Super League und den Folgen der Pandemie zukünftig an Relevanz gewinnen wird **The New Era of Global Services** Javier Peña Capobianco, 2023-10-11 The New Era of Global Services is the result of interviews with more than seventy international leaders The results show that in the coming years Global Services will tend to grow in business to business B2B business to consumer B2C peer to peer P2P and in particular peer to business P2B relationships The Cultivation of Taste Christel Lane, 2014-02-14 After many decades if not centuries of neglect of fine food and high level restaurants in Britain we are seeing a massive explosion of interest in food cooking and dining out Christel Lane's book charts the process of this transformation and examines top contemporary restaurants and their chefs The Cultivation of Taste presents a comparative study of Michelin starred restaurants in Britain and Germany focusing on two countries without an indigenous haute cuisine but which nevertheless have developed internationally reputed fine dining sectors and comparing their development to the fine dining culture in France Written from a sociological perspective chefs are portrayed as part of a complex network in their relationships with their employees their customers gastronomic critics suppliers of food and even their financiers It will appeal to academics in the areas of economic and cultural sociology and those with an interest in small entrepreneurial firms

and their work relations but also to all those who have an interest in fine dining restaurants and the chef patrons at the centre of them The book draws on a large number of interviews with renowned chefs diners and Michelin inspectors to provide an unprecedented insight into what goes on in Michelin starred restaurants what makes their chefs tick intrigues their critics and beguiles or annoys their customers Restaurants are viewed not simply as businesses but as cultural enterprises that shape our taste in food ambience and sociality *European Disintegration?* Douglas Webber, 2018-11-20 This new book provides a comprehensive analysis of Europe on the brink of political disintegration Observers of the European Union EU could be forgiven for thinking that it is in a state of permanent crisis The Union has been beset with high levels of Eurozone debt Russian intervention and armed conflict in Ukraine refugees fleeing conflict zones in North Africa and the Middle East and the decision of Britain to leave the European Union This text offers a concise and readable assessment of the dynamics character and consequences of these four crises and the increasingly real possibility of European disintegration High levels of socio economic interdependence and institutionalization have failed to result in an ever closer union and yet the proposed theories of disintegration also fall short Webber instead shows that it is only by looking at the role of the EU's dominant member Germany in each crisis that the potential for an increasingly fragmented Europe becomes clear Until now Germany has been the EU's stabilizing force but this is no longer guaranteed The fate of the integration process will depend on whether other more inclusive forms of stabilizing leadership may emerge to fill the vacuum created by Berlin's incapacity This text is the ideal companion for upper undergraduate and postgraduate students of the European Union as part of degrees in politics international relations or European studies or for anyone interested in the crises of the European Union *Hitler's Panzers East* R.H.S. Stolfi, 2014-11-20 How close did Germany come to winning World War II Did Hitler throw away victory in Europe after his troops had crushed the Soviet field armies defending Moscow by August 1941 R H S Stolfi offers a dramatic new picture of Hitler's conduct in World War II and a fundamental reinterpretation of the course of the war Adolf Hitler generally is thought to have been driven by a blitzkrieg mentality in the years 1939 to 1941 In fact Stolfi argues he had no such outlook on the war From the day Britain and France declared war Hitler reacted with a profoundly conservative cast of mind and pursued a circumscribed strategy pushing out siege lines set around Germany by the Allies Interpreting Hitler as a siege fighter explain his apparent aberrations in connection with Dunkirk his fixation on the seizure of Leningrad and his fateful decision in the summer of 1941 to deflect Army Group Center into the Ukraine when both Moscow and victory in World War II were within its reach Unaware of Hitler's siege orientation the German Army planned blitz campaigns Through daring operational concepts and bold tactics the army won victories over several Allied powers in World War II and these led to the great campaign against the Soviet Union in summer of 1941 Stolfi postulates that in August 1941 German Army Group Center had the strength both to destroy the Red field armies defending the Soviet capital and to advance to Moscow and beyond The defeat of the Soviet Union would have assured victory in World War II Nevertheless

Hitler ordered the army group south to secure the resources of the Ukraine against a potential siege And a virtually assured German victory slipped away This radical reinterpretation of Hitler and the capabilities of the German Army leads to a reevaluation of World War II in which the lesson to be learned is not how the Allies won the war but how close the Germans came to a quick and decisive victory long before the United States was drawn into the battle *EU Council Presidencies in Times of Crises* Ramona Coman,Vivien Sierens,2024-05-30 The Council of the EU is a powerful institution whose centrality has been challenged by the Treaty of Lisbon More than ten years after this major institutional revision this book examines its role within the EU political regime and its interactions with other institutions It explores how the Council Presidency has navigated major crises over the past decade and addressed internal challenges The various chapters discuss key timely questions How has the relationship between the Council and the European Council evolved over time To what extent have the recent crises reshaped the relationship between the Council and the European Parliament as well as its interactions with the Commission Is the Council Presidency still a powerful mediator What are its internal challenges What are the prospects for the rotating presidency system
