Johann Lorenz Mosheim

Canon Fax 1220 Instruction Manual:

Courting Power Laurie Shepard, 2013-08-21 This text chronicles a change in epistolary persuasion in the 1230 s crystallized at the imperial chancery of Frederick II Emperor from 1220 1250 There traditional appeals premised on authority and harmony were challenged by letters in which historical circumstances functioned as an integral part of the strategy of persuasion Based on the close reading of *Artes Dictandi* as well as a series of letters issued from the papal and imperial chanceries this book explores the theory and practice of medieval letter writing Letters are evaluated as verbal acts intended to persuade with the public as the ultimate arbiter of success The author argues that the form proportion and style of letters were contoured by ideology

The Measure of Multitude Peter Biller, 2000-12-14 By 1300 medieval men and women were beginning to measure multitude counting for example numbers of boys and girls being baptized Their mental capacity to grapple with population to get its measure was developing and this book describes how medieval people thought about population through both the texts which contained their thought and the medieval realities which shaped it They found many topics such as the history of population and variations between polygamy monogamy and virginity through theology Crusade and travel literature supplied the themes of Muslim polygamy military numbers the colonization of the Holy Land and the populations of Mongolia and China Translations of Aristotle provided not only new themes but also a new vocabulary with which to think about population In this innovative new study Peter Biller challenges the view that medieval thought was fundamentally abstract He investigates medieval thought s capacity to deal with concrete contemporary realities and sets academic discussions of population alongside the medieval facts of birth and copulation and death

A Dictionary of American and English Law Stewart Rapalje, Robert Linn Lawrence, 1888 *The Two Latin Cultures and the Foundation of Renaissance Humanism in Medieval Italy* Ronald G. Witt, 2012-03-19 This book traces the intellectual life of the Kingdom of Italy the area in which humanism began in the mid thirteenth century a century or more before exerting its influence on the rest of Europe Covering a period of over four and a half centuries this study offers the first integrated analysis of Latin writings produced in the area examining not only religious literary and legal texts Ronald G Witt characterizes the changes reflected in these Latin writings as products of the interaction of thought with economic political and religious tendencies in Italian society as well as with intellectual influences coming from abroad His research ultimately traces the early emergence of humanism in northern Italy

in the mid thirteenth century to the precocious development of a lay intelligentsia in the region whose participation in the culture of Latin writing fostered the beginnings of the intellectual movement which would eventually revolutionize all of Europe *Editor & Publisher Newspaper Data Book* ,2004 **American Journal, and Annals of Education and Instruction** ,1871
