Japanese Cinema in the Digital Age Mitsuyo Wada-Marciano, 2012-05-31 Digital technology has transformed cinema s production distribution and consumption patterns and pushed contemporary cinema toward increasingly global markets In the case of Japanese cinema a once moribund industry has been revitalized as regional genres such as anime and Japanese horror now challenge Hollywood s preeminence in global cinema In her rigorous investigations of J horror personal documentary anime and ethnic cinema Mitsuyo Wada Marciano deliberates on the role of the transnational in bringing to the mainstream what were formerly marginal B movie genres She argues persuasively that convergence culture which these films represent constitutes Japan s response to the variegated flows of global economics and culture With its timely analysis

of new modes of production emerging from the struggles of Japanese filmmakers and animators to finance and market their work in a post studio era this book holds critical implications for the future of other national cinemas fighting to remain viable in a global marketplace As academics in film and media studies prepare a wholesale shift toward a transnational perspective of film Wada Marciano cautions against jettisoning the entire national cinema paradigm Discussing the technological advances and the new cinematic flows of consumption she demonstrates that while contemporary Japanese film on the one hand expresses the transnational as an object of desire i e a form of total cosmopolitanism on the other hand that desire is indeed inseparable from Japan s national identity Drawing on a substantial number of interviews with auteur directors such as Kore eda Hirokazu Kurosawa Kiyoshi and Kawase Naomi and incisive analysis of select film texts this compelling original work challenges the presumption that Hollywood is the only authentically global cinema
