**CISSP Concentrations Exam Study Guide 2013** ExamREVIEW, 2012-10-04 According to ISC2 passing a concentration examination demonstrates proven capabilities and subject matter expertise beyond that required for the CISSP credential This single ALL IN ONE exam book covers CISSP with specialization in Architecture ISSAP Study Material CISSP with specialization in Engineering ISSEP Study Material CISSP with specialization in Management ISSMP Study Material The so call CISSP concentration tracks attempt to cover what you have gone through in the CISSP base track but with more in depth coverage on certain knowledge areas The CISSP ISSAP track covers Access Control Systems and Methodology Communications Network Security Cryptography Security Architecture Analysis Technology Related Business Continuity Planning BCP Disaster Recovery Planning DRP Physical Security Considerations The CISSP ISSMP track covers Security Management Practices Systems Development Security Security Compliance Management Understand Business Continuity Planning BCP Disaster Recovery Planning DRP Law Investigation Forensics and Ethics The CISSP ISSEP track covers Systems Security Engineering Certification and Accreditation C A Technical Management U S Government Information Assurance Governance Even though these tracks are structured and marketed with different knowledge areas experience shows that clear cut boundaries between the involved topics can hardly be established Studying on a track by track basis may save you time but the coverage received may not be sufficient for clearing the exam In fact it may be a way better approach for you to go through everything included in this guide as a whole rather than to restrict your focus on the track specific topics when they overlap so much you better play safe When we develop our material we do not classify topics the BOK way We follow our own flow of instructions which we think is more logical for the overall learning process Don t worry it does not hurt to do so as long as you truly comprehend
