Summary & Study Guide - Civilization Lee Tang, 2019-05-02 Why does Western civilization dominate the rest of the world This book is a summary of *Civilization The West and the Rest* by Niall Ferguson The central question is Why did the West dominate the Rest and not vice versa The book describes six concepts that the West has developed that allow them to leap ahead of the Rest unleashing the Industrial Revolution and increasing human productivity Six hundred years ago Ming China and Ottoman Turkey dominated the world civilizations while Western Europe was a miserable backwater devastated by incessant war and disease But today Western civilization has risen to global dominance How did the West overtake its Eastern rivals in the past 500 or so years In *Civilization* Niall Ferguson argues that beginning in the 15th century the West developed six powerful concepts that the Rest lacked competition science property rights medicine consumerism and work

ethic These six killer apps allowed the West to leap ahead of the Rest unleashing the Industrial Revolution and increasing human productivity Yet now the days of Western predominance are numbered because the Rest are adopting these same concepts while the West has lost faith in its own civilization Read this book and learn how these six killer apps helped the West dominate the world This guide includes Book Summary helps you understand the key concepts Online Videos cover the concepts in more depth Value added from this guide Save time Understand key concepts Expand your knowledge The West and the Rest Roger Scruton,2014-05-13 Scruton shows how the different religious and philosophical roots of Western and Islamic societies have resulted in those societies profoundly divergent beliefs about the nature of political order For one thing the idea of the social contract crucial to the self conception of Western nations is entirely absent in Islamic societies Similarly Scruton explains why the notions of territorial jurisdiction citizenship and the independent legitimacy of secular authority and law are both specifically Western and fundamentally antipathetic to Islamic thought And yet says Scruton for its adherents Islam provides amply for one of the most fundamental of human needs the need for membership In contrast the decay of the West s own political vision and its concomitant preoccupation with individual choice has finally led to a culture of repudiation in which that need goes increasingly unfulfilled principally because the sources of its fulfillment patriotism religious belief traditional ways of life are routinely mocked Globalization has made these facts an explosive mixture Migration modern communications and the media have inexorably brought the formerly remote inhabitants of Islamic nations into constant contact with the images products and peoples of secular liberal democracies Scruton warns that in light of this new reality certain Western assumptions about consumption and prosperity about borders and travel about free trade and multinational corporations and about multiculturalism need to be thoroughly re evaluated The West and the Rest is a major contribution to the West s public discourse about terrorism civil society and liberal democracy
