Classic American Popular Song The Second Half Century 1950 2000:

Classic American Popular Song David Jenness, Don Velsey, 2006 During the so called Age of Melancholy many writers invoked both traditional and new conceptualizations of the disease in order to account for various types of social turbulence ranging from discontent and factionalism to civil war Writing about melancholy became a way to explore both the causes and preventions of political disorder on both specific and abstract levels Thus at one and the same moment a writer could write about melancholy to discuss specific and ongoing political crises and to explore more generally the principles which generate political conflicts in the first place In the course of developing a traditional discourse of melancholy of its own English writers appropriated representations of the disease often ineffectively in order to account for the political turbulence during the civil war and Interregnum periods
