Danger Women Artists At Work:

Danger! Women Artists at Work Debra N. Mancoff, 2012 The conventional history of art is one of great men making great paintings and displaying their works to a predominantly male audience in male run institutions Women however have had a role often working behind the scenes out of sight or in resistance to prevailing attitudes and practices And it is in these exceptions to the rules of the masculine world of art making that women artists have been perceived as groundbreaking defiant and even subversive A compelling selection of more than 60 artists from the early Renaissance to the present day among them Judith Leyster Mary Cassatt Frida Kahlo and Louise Bourgeois *Danger Women Artists at Work* explores the most intriguing and provocative aspects of art by women who shook up the art world Through a lively introduction and six thematic chapters dealing with such subjects as the ways in which women have challenged the boundaries of expression and how they have viewed the human body Debra N Mancoff presents an absorbing tale of those who have struggled and triumphed in their efforts to transform the visual arts

Deacon, 2024-09-25 Like many of their male peers women artists have used their chosen mediums to explore and express their reactions to the violence of war which they frequently experienced firsthand The 345 named artists discussed in this book come from diverse backgrounds across hundreds of years The book divides the 652 covered works of art into five general categories those that provide support for the war effort those that oppose war and or support peace those that document the impacts of war on the individuals who fight and the civilians who experience it those that commemorate and memorialize the events and participants in war and general representations of those who fight While most of the women who documented the impact of war on those who experienced it were professional artists self taught artists have told equally compelling stories in their works Whether working in a studio or on the battlefield the women s professionalism and dedication allowed them to convey the impact of war powerfully

of the English Arts and Crafts movement from the 1870s to the 1930s Challenging the long standing assumption that the Arts and Crafts simply revolved around celebrated male designers like William Morris it instead offers a new social and cultural account of the movement which simultaneously reveals the breadth of the imprint of women art workers upon the making of modern society Thomas provides unprecedented insight into how women navigated authoritative roles as art workers by asserting expertise across a range of interconnected cultures from the artistic to the professional intellectual entrepreneurial and domestic Through examination of newly discovered institutional archives and private papers Thomas elucidates the critical importance of the spaces around which women conceptualised alternative creative and professional lifestyles
