Darwinism Sorcery In The Classroom:

Darwinism John Schroeder, 2005 Author John Schroeder has conducted many seminars over the years clearly refuting the molecule to man evolution theory through established scientific facts Now these scientific facts can be easily read and understood in his new book *Darwinism Sorcery in the Classroom* In this well researched work Schroeder applies the same principle that works so successfully in his Creation Science Seminars Hence the reader will find the evidence against m to m evolution Darwinism presented in laymen s terms that are easily understood both by adults and the young people attending public schools The sum total of the evidence will engender an immutable conviction that m to m evolution taught as established fact in the public school system is in fact a monumental deception whose probability and possibility is exactly ZERO It is nothing more or less than 21st century sorcery and because its disciples have intimidated the media and the public into a condoning silence it has become an intellectual cancer infecting virtually every phase of the public education system

Digging up Darwin in Ohio Richard J. Rolwing, 2003-08-27 During the year 2002 the Ohio State School board revised its recommendations for teaching science in all twelve grades Many scientists wanted evolution taught For six months newspapers carried news stories about books and debates letters to editors from all directions interviews with teachers and writers and long editorials The author records most of these and reflects upon all sides critically He comments within and upon them Ohio dug up Darwin Rolwing holds his nose not at the corpse but over the reasons given for both burying him and for digging him up Bad history bad science bad philosophy bad theology bad politics bad pedagogy and bad faith raised quite a bad stink
