This book provides a critical and innovative reassessment of contemporary debate on the human animal relationship Starting with a critique of the official philosophical narration of animal studies and then a reassessment of Descartes animal machine paradigm Simone Ghelli tracks down the conceptual coordinates of what he calls the paradigm of the suffering animal The suffering animal is a materialist thesis on the condition of the living which while contesting the metaphysical and anthropocentric structure of western axiology eventually redefines and re establishes ethics on the experience of suffering that is on the mutual compassion sentient beings feel before the unjust sight of their finitude The suffering animal paradigm shows how within our philosophical tradition the animal question has been always intertwined with the questions of atheism and of materialism The ultimate aim of this research is to define the ethical equilibrium between aspects of the living such as weakness and power joy and suffering life and death which our philosophical tradition largely tends to consider as mutually excluding To overcome such oppositions means avoiding opposing in our ethical and political discourse the defense of the vulnerability of the weak and the freedom of the powerful The Darwin Effect Jerry Bergman,2014-09-26

Dr Miklos Nyiszli an imprisoned doctor in the Auschwitz camp wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races Nazis hoped to have each German mother bear as many twins as possible What Darwin influenced went far beyond the Nazi death camps Shocking political social and scientific legacies of Darwin and his family Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith Revealing and layman friendly presentation This book is the result of 30 years of research and study carefully documenting the common destructive threads that tie some of history s most murderous dictators uncaring capitalists and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded The extermination of races considered lower than others the profound lack of empathy for less advanced cultures the corrupted atheistic justifications for taking the lives of millions all done to advance the agendas of social Darwinism at work in the world today More than mere theoretical discussions we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years
