Civilians At War Journals 1938 1946:

Civilians at War George Beardmore,1986 *Britain's War: A New World, 1942-1947* Daniel Todman,2020-03-17 The second volume of Daniel Todman's epic history of the British experience of World War II and its aftermath *The Battle of London 1939-45* Jerry White,2021-11-04 Endlessly fascinating White is such a brilliant historian Mail on Sunday Lasting for six long years the Blitz transformed life in the capital beyond recognition marking a time of almost constant anxiety disruption deprivation and sacrifice for Londoners With the capital the nation's frontline during the Second World War by its end 30 000 inhabitants had lost their lives While much has been written about the Myth of the Blitz its riveting social history has often been overlooked Unearthing what it was actually like for those living through those tempestuous years Jerry White paints a fascinating portrait of the daily lives of ordinary Londoners telling the story through their own voices As a history of the capital in wartime it is probably unsurpassable Sunday Telegraph An impressive history of the capital at war White an accomplished chronicler of London's history tells it with brio and a confident mastery of the sources Literary Review

London 1945 Maureen Waller,2013-12-31 London at the outset of World War II in 1939 was the greatest city in the world the heart of the British Empire By 1945 it was a drab and exhausted city beginning the long haul back to recovery The defiant capital of England had always been Hitler's prime target The last months of the Second World War saw the final phase of the battle of London as the enemy unleashed its new vengeance weapons the flying bombs and rockets They were terrifying and brought destruction on a vast scale but fortunately came too late to dent morale seriously The people of London were showing the spirit courage and resilience that had earned them the admiration of the world during a long siege In the harshest winter of fifty years they were living in primitive conditions Thousands were homeless living in the Underground and deep shelters Women lined up for horse meat and were lucky to obtain one egg a month They besieged emergency coal dumps Everyone longed for peace The bright new world seemed elusive As the victory celebrations passed into memory there were severe hardships and all the problems of post war adjustment Women lost the independence the war had lent them husbands and wives had to learn to live together again and children had a lot of catching up to do Yet London's loss has often been its opportunity Its people had eagerly embraced plans for a modern metropolis and an end to poverty They voted overwhelmingly for a Labour government and the new fairer social order that was their reward for all they had endured The year of victory 1945 represents an important chapter in London's and Britain's long history Acclaimed historian Maureen Waller draws on a rich array of primary sources letting the people tell their own story to re create that moment bringing to it the social insight at which she excels [Don't You Know There's a War On?](#) Jonathan Croall,2015-09-25 Was the country really united in the face of the common enemy Did people actually put the community's needs before their own Or were such ideas simply a series of myths created at the time and nurtured ever since The recollections of this book first published in 1989 attempt to answer such questions by evoking the reality of life on the home front during the war years

Here is a uniquely personal portrait of a nation at war extensively illustrated with photographs diaries letters poems and other memorabilia belonging to the men and women whose wartime lives fill this absorbing book This title will be of interest to students of history *Britain's War Into Battle,1937-1941* Daniel Todman,2016 The first volume of a sweeping new history of Britain and its involvement in World War II **Under Cover of Darkness** Amy Helen Bell,2024-11-05 A gripping new history of London during the Blackout revealing the violent crime that spread across the capital under the cover of darkness Fear was the unacknowledged spectre haunting the streets of London during the Second World War fear not only of death from the German bombers circling above but of violence at the hands of fellow Londoners in the streets below Mass displacement the anonymity of shelters and the bomb scarred landscape offered unprecedented opportunities for violent crime In this absorbing sometimes shocking account Amy Helen Bell uncovers the hidden stories of murder and violence that were rife in wartime London Bell moves through the city examining the crimes in their various locations from domestic violence in the home to robberies in the blacked out streets and fights in pubs and clubs She reveals the experiences of women children and the elderly and focuses on the lives of the victims as well as their deaths This groundbreaking study transforms our understanding of the ways in which war made people vulnerable not just to the enemy but to each other

The Politics of Marginality Antony Robin Jeremy Kushner,Kenneth Lunn,1990 The essays in this collection are an attempt to provide a basis for future discussion of immigration ethnicity and race in Britain *The Politics of Marginality* Tony Kushner,Kenneth Lunn,2012-11-12 Immigration to Britain has rarely achieved the levels experienced by the US but it is nevertheless true of all periods that immigrants refugees and sojourners have been continually present While we may have the beginnings of a history of immigration ethnicity and race in Britain there is a lack of historiographical awareness in the subject The essays in this collection ranging from specific case studies to broad themes are an attempt to provide a basis for future discussion Experience and Memory Jörg Echternkamp,Stefan Martens,2010-12-01 Modern military history inspired by social and cultural historical approaches increasingly puts the national histories of the Second World War to the test New questions and methods are focusing on aspects of war and violence that have long been neglected What shaped people's experiences and memories What differences and what similarities existed in Eastern and Western Europe How did the political framework influence the individual and the collective interpretations of the war Finally what are the benefits of Europeanizing the history of the Second World War Experts from Belgium Germany France Great Britain Italy Luxembourg Poland and Russia discuss these and other questions in this comprehensive volume
