The Gospels in Islamic Context Georgina L. Jardim, Ida Glaser, Shirin Shafaie, 2025-09-30 Bringing together scholars from across the world this publication shows Christians and Muslims individually or together reading the canonical Gospels of the New Testament in conversation with Islamic texts and contexts In the discovery of meaning between text context and praxis this volume asks what are the texts doing in contexts as far flung as Indonesia the Hijaz of early Islam in Persian poetry of medieval times or modern Sunni interpretation in north America This second edited volume in the series Reading the Bible in Islamic Context continues the pioneering venture in contextual and intertextual reading It shows the richness of cooperative scholarship that results from reading the New Testament in Islamic context and exploring how the Gospel is understood in various religious traditions The Gospels in Islamic Context will be of interest to scholars students and practitioners encouraging them to explore new methods for taking into account intertextual factors as well as the history of Muslim Christian relations that arises from them It is a venture in which Muslims and Christians travel side by side and in conversation with each other although with significantly different perspectives and often different agendas

Evaluation in Translation Jeremy Munday, 2012-06-14 In this book Jeremy Munday presents advances towards a general theory of evaluation in translator decision making that will be of high importance to translator and interpreter training and to descriptive translation analysis By evaluation the author refers to how a translator s subjective stance manifests itself linguistically in a text In a world where translation and interpreting function as a prism through which opposing personal and political views enter a target culture it is crucial to investigate how such views are processed and sometimes subjectively altered by the translator To this end the book focuses on the translation process rather than the product and strives to identify more precisely those points where the translator is most likely to express judgment or evaluation The translations studied cover a range of languages Arabic Chinese Dutch French German Indonesian Italian Japanese Russian Spanish and American Sign Language accompanied by English glosses to facilitate comprehension by readers This is key reading for researchers and postgraduates studying translation theory within Translation and Interpreting Studies

civilizations she played a critical spiritual role as a keeper of nature's fertile powers and an assurance of the next sustaining harvest In *The Goddess* David Leeming and Christopher Fee take us all the way back into prehistory tracing the goddess across vast spans of time to tell the epic story of the transformation of belief and what it says about who we are Leeming and Fee use the goddess to gaze into the lives and souls of the people who worshipped her They chart the development of traditional Western gender roles through an understanding of the transformation of concepts of the Goddess from her earliest roots in India and Iran to her more familiar faces in Ireland and Iceland They examine the subordination of the goddess to the god as human civilizations became mobile and began to look upon masculine deities for assurances of survival in movement and battle And they show how despite this history the goddess has remained alive in our spiritual imaginations in figures such as the Christian Virgin Mother and in contemporary times the new age resurrection of figures such as Gaia *The Goddess* explores this central aspect of ancient spiritual thought as a window into human history and the deepest roots of our beliefs
