

DICHOTOMY

A dichotomy occurs when we construct two mutually exclusive categories that are opposites, lacking in overlap, and do not fit along a sliding scale.

EXPLANATION

Dichotomies allow us to categorize and compare different things.

However, dichotomies can often be overly simplistic and reductionist. They cannot capture the complexities of social reality and can sometimes be misleading. So, while they serve as a significant tool of knowledge, it is necessary to understand their limitations.

EXAMPLES

1. Individual / Society
2. Objective / Subjective
3. Tradition / Modernity
4. Formal / Informal
5. Male / Female
6. Public / Private
7. Nature / Nurture
8. Global / Local

Dark Dichotomy Dichotomy Saga Book 3:

Beyond Dichotomies Elisabeth Mudimbe-Boyi, 2012-02-01 *Beyond Dichotomies* examines literary texts cultural production and concrete local practices within the context of modernity and globalization by focusing on the ways in which some societies confront the complexity of cultures reflected in new forms of knowledge narratives and subjectivities The contributors explore how particular societies negotiate the relations between the global and the local and use a geographical comparative perspective combined with an interdisciplinary approach to offer a diversity of views and illuminate the cultural impact of globalization on different societies around the world Africa Asia Europe and the Americas These societies face complex questions regarding people's histories identities and cultures that embody the ambivalence contradictions and anxieties generated by the process of globalization The contributors provide a compelling conclusion for a rethinking and reconfiguration of cultures and intercultural relations in today's global world in which dichotomized representations coexist with a discourse of globalization

African American Novels in the Black Lives Matter Era E. Lâle Demirtürk, 2019-08-09 *African American Novels in the Black Lives Matter Era* Transgressive Performativity of Black Vulnerability as Praxis in Everyday Life explores the undoing of whiteness by black people who dissociate from scripts of black criminality through radical performative reiterations of black vulnerability It studies five novels that challenge the embodied discursive practices of whiteness in interracial social encounters showing how they use strategic performances of Blackness to enable subversive practices in everyday life which is constructed and governed by white mechanisms of racialized control The agency portrayed in these novels opens up alternative spaces of Blackness to impact the social world and effects transformative change as a forceful critique of everyday life *African American Novels in the Black Lives Matter Era* shows how these novels reformulate the problem of black vulnerability as a constitutive source of the right to life in their refusal of subjection to vulnerability enacted by white institutional and individual forms of violence It positions a white/black encounter oriented reading of these neo resistance novels of the Black Lives Matter era as a critique of everyday life in an effort to explore spaces of radical performativity of blackness to make happen social change and transformation

Cross-Textual Reading of Ecclesiastes with the Analects Elaine Wei-Fun Goh, 2019-10-03 Various cross textual readings have been attempted between the Christian Bible and Chinese literature Using cross textual hermeneutics this study centers on the political wisdom of Ecclesiastes and the Analects and its goal is to demonstrate that both texts offer wisdom pointers for human survival amid uncertain sociopolitical realities Chapter 1 introduces the vibrant interaction of biblical wisdom literature within the ancient Near East and highlights some of its political connections The openness of wisdom literature is then proposed to support this present effort of cross textual research Chapter 2 offers readings of eight passages that communicate Qoheleth's political wisdom in

Ecclesiastes Chapter 3 centers on the Analects and on some notable passages that relate to Confucius political ideas Chapter 4 seeks to demonstrate the dialogical dynamics between the two works by exploring specific hermeneutical connections In conclusion readers will come to understand the distinctive and collective political insights of both wisdom texts That is this study suggests contextualized ideas for living wisely from within both a faith tradition and a native tradition

The Transmedia Construction of the Black Panther Bryan J. Carr, 2022-04-25 In *The Transmedia Construction of the Black Panther* Long Live the King Bryan J Carr explores and analyzes the evolution of the Black Panther character since his inception in the 1960s across comics film television video games and music The Black Panther Carr argues is the sum of the creative works of countless individuals across various media that have each contributed to the legacy of the first mainstream Black superhero all happening against a backdrop of social and cultural upheaval global political struggle for equality and the long shadow of colonizing Western attitudes The Panther's existence is a complex one that not only illustrates in microcosm those same struggles in the historically white superhero space but also offers a perfect case study for media trends of representation then and now Carr addresses a number of questions Does the Black Panther really represent a powerful counter narrative to long standing regressive attitudes toward Black identity and Africa Who were the key contributors to our understanding of the character And finally how can we use the character to understand the complexities of our modern consolidated media systems Scholars of media studies film and television studies comics studies cultural studies critical race studies and African studies will find this book particularly useful

Uncanny Bodies Scott T. Smith, José Alaniz, 2019-11-27 Superhero comics reckon with issues of corporeal control And while they commonly deal in characters of exceptional or superhuman ability they have also shown an increasing attention and sensitivity to diverse forms of disability both physical and cognitive The essays in this collection reveal how the superhero genre in fusing fantasy with realism provides a visual forum for engaging with issues of disability and intersectional identity race ethnicity class gender and sexuality and helps to imagine different ways of being in the world Working from the premise that the theoretical mode of the uncanny with its interest in what is simultaneously known and unknown ordinary and extraordinary opens new ways to think about categories and markers of identity *Uncanny Bodies* explores how continuums of ability in superhero comics can reflect resist or reevaluate broader cultural conceptions about disability The chapters focus on lesser known characters such as Echo Omega the Unknown and the Silver Scorpion as well as the famous Barbara Gordon and the protagonist of the

acclaimed series Hawkeye whose superheroic uncanniness provides a counterpoint to constructs of normalcy Several essays explore how superhero comics can provide a vocabulary and discourse for conceptualizing disability more broadly Thoughtful and challenging this eye opening examination of superhero comics breaks new ground in disability studies and scholarship in popular culture In addition to the editors the contributors are Sarah Bowden Charlie Christie Sarah Gibbons Andrew Godfrey Meers Marit Hanson Charles Hatfield Naja Later Lauren O Connor Daniel J O Rourke Daniel Pinti Lauranne Poharec and Deleasa Randall Griffiths The Minds of Marginalized Black Men Alford A. Young Jr.,2011-10-30 While we hear much about the culture of poverty that keeps poor black men poor we know little about how such men understand their social position and relationship to the American dream Moving beyond stereotypes this book examines how twenty six poverty stricken African American men from Chicago view their prospects for getting ahead It documents their definitions of good jobs and the good life and their beliefs about whether and how these can be attained In its pages we meet men who think seriously about work family and community and whose differing experiences shape their views of their social world Based on intensive interviews the book reveals how these men have experienced varying degrees of exposure to more privileged Americans differences that ground their understandings of how racism and socioeconomic inequality determine their life chances The poorest and most socially isolated are perhaps surprisingly most likely to believe that individuals can improve their own lot By contrast men who regularly leave their neighborhood tend to have a wider range of opportunities but also have met with more racism hostility and institutional obstacles making them less likely to believe in the American Dream Demonstrating how these men interpret their social world this book seeks to de pathologize them without ignoring their experiences with chronic unemployment prison and substance abuse It shows how the men draw upon such experiences as they make meaning of the complex circumstances in which they strive to succeed Entomological Revue ,1972
