Dark Voices W E B Du Bois And American Thought 1888 1903:

Dark Voices Shamoon Zamir, 1995-10-01 *Dark Voices* is the first sustained examination of the intellectual formation of W E B Du Bois tracing the scholar and civil rights leader's thought from his undergraduate days in the 1880s to the 1903 publication of his masterpiece *The Souls of Black Folk* and offering a new reading of his work from this period Bringing to light materials from the Du Bois archives that have not been discussed before Shamoon Zamir explores Du Bois's deep engagement with American and European philosophy and social science He examines the impact on Du Bois of his studies at Harvard with William James and George Santayana and shows how the experience of post Reconstruction racism moved Du Bois from metaphysical speculation to the more instrumentalist knowledge of history and the new discipline of sociology as well as toward the very different kind of understanding embodied in the literary imagination Providing a new and detailed reading of *The Souls of Black Folk* in comparison with Hegel's *Phenomenology of Mind* Zamir challenges accounts that place Du Bois alongside Emerson and James or characterize him as a Hegelian idealist This reading also explores Du Bois's relationship to African American folk culture and shows how Du Bois was able to dramatize the collapse of many of his hopes for racial justice and liberation The first book to place *The Souls of Black Folk* in its intellectual context *Dark Voices* is a case study of African American literary development in relation to the broader currents of European and American thought

The Darkened Light of Faith Melvin L. Rogers, 2023-09-26 A major new account of an ethical vision of democracy articulated and enacted by a group of 19th and 20th century African American abolitionists activists artists and political thinkers Race J. Kameron Carter, 2008-09-02 In *Race A Theological Account* J Kameron Carter meditates on the multiple legacies implicated in the production of a racialized world and that still mark how we function in it and think about ourselves These are the legacies of colonialism and empire political theories of the state anthropological theories of the human and philosophy itself from the eighteenth century Enlightenment to the present Carter's claim is that Christian theology and the signal transformation it along with Christianity underwent is at the heart of these legacies In that transformation Christian anti Judaism biologized itself so as to racialize itself As a result and with the legitimation of Christian theology Christianity became the cultural property of the West the religious ground of white supremacy and global hegemony In short Christianity became white The racial imagination is thus a particular kind of theological problem Not content only to describe this problem Carter constructs a way forward for Christian theology Through engagement with figures as disparate in outlook and as varied across the historical landscape as Immanuel Kant Frederick Douglass Jarena Lee Michel Foucault Cornel West Albert Raboteau Charles Long James Cone Irenaeus of Lyons Gregory of Nyssa and Maximus the Confessor Carter reorients the whole of Christian theology bringing it into the twenty first century **Sun Ra's Chicago** William Sites, 2021-01-11 Sites provides crucial context on how Chicago's Afrocentrist philosophy religion and jazz scenes helped turn Blount into Sun Ra Chicago Reader Sun Ra 1914-93 was one of the most wildly prolific and unfailingly eccentric figures in the history of

music Renowned for extravagant performances in which his Arkestra appeared in neo Egyptian garb the keyboardist and bandleader also espoused an interstellar cosmology that claimed the planet Saturn as his true home In Sun Ra s Chicago William Sites brings this visionary musician back to earth specifically to the city s South Side where from 1946 to 1961 he lived and relaunched his career The postwar South Side was a hotbed of unorthodox religious and cultural activism Afrocentric philosophies flourished storefront prophets sold dream book bibles and Elijah Muhammad was building the Nation of Islam It was also an unruly musical crossroads where the man then known as Sonny Blount drew from an array of intellectual and musical sources from radical nationalism revisionist Christianity and science fiction to jazz blues Latin dance music and pop exotica to construct a philosophy and performance style that imagined a new identity and future for African Americans Sun Ra s Chicago shows that late twentieth century Afrofuturism emerged from a deep utopian engagement with the city and that by excavating the postwar black experience of Sun Ra s South Side milieu we can come to see the possibilities of urban life in new ways Four stars Sites makes the engaging argument that the idiosyncratic jazz legend s penchant for interplanetary journeys and African American utopia was in fact inspired by urban life right on Earth Spectrum Culture

African American Environmental Thought Kimberly K. Smith, 2007 Examines the works of Frederick Douglass Booker T Washington W E B Du Bois and several other canonical figures to uncover a rich and vital tradition of black environmental thought from the abolition movement through the Harlem Renaissance Provides the first careful linkage of the early conservation movement to black history the first detailed description of black agrarianism and the first analysis of scientific racism as an environmental theory
