take part in that tired narrative and decided to flip the script on divorce In this exuberant and unapologetic book Lenz makes an argument for the advantages of getting divorced framing it as a practical and effective solution for women to take back the power they are owed Weaving reportage with sociological research and literature with popular culture along with personal stories of coming together and breaking up Lenz creates a kaleidoscopic and poignant portrait of American marriage today She argues that the mechanisms of American power justice love and gender equality remain deeply flawed and that marriage like any other cultural institution is due for a reckoning A raucous argument for acceptance solidarity and collective female refusal This American Ex Wife takes readers on a riveting ride while pointing us all toward a life that is a little more free
