Comcast Local Office:

We Are Buyers. You Are Sellers. You're Busted. Dick Lee, 2014-09-25 Lee's often humorous but sometimes sad documentation of the long term erosion of buyer seller relations is a must read for corporate managers who want to know why customers suspect their motives and explanations and for American citizens wanting to know what hit them David Mangen Ph D President of Mangen Research and author of multiple books An amazingly insightful and extremely relevant book The time has finally arrived when consumer power will force business to engage with humanity authenticity and empathy Doug Leather CEO of REAP Consulting Pty Ltd author of The Customer Centric Blueprint Recommended reading for customer centric leaders with a genuine desire to understand customers sentiment no matter how much it hurts and how to meet their expectations for fair and honest treatment Bob Thompson Founder CEO of CustomerThink Corp and author of Hooked On Customers *FCC Record* United States. Federal Communications Commission, 2016 *The Cluetrain Manifesto (10th Anniversary Edition)* Rick Levine, Christopher Locke, Doc Searls, David Weinberger, 2009-06-30 The Cluetrain Manifesto began as a Web site cluetrain.com in 1999 when the authors who have worked variously at IBM Sun Microsystems the Linux Journal and NPR posted 95 theses about the new reality of the networked marketplace Ten years after its original publication their message remains more relevant than ever For example thesis no 2 Markets consist of human beings not demographic sectors thesis no 20 Companies need to realize their markets are often laughing at them The book enlarges on these themes through dozens of stories and observations about business in America and how the Internet will continue to change it all With a new introduction and chapters by the authors and commentary by Jake McKee JP Rangaswami and Dan Gillmor this book is essential reading for anybody interested in the Internet and e commerce and is especially vital for businesses navigating the topography of the wired marketplace *Your Call Is (Not That) Important to Us* Emily Yellin, 2009-03-24 Yellin offers a lively narrative exploration of the very human stories behind the often inhuman face of call center customer service and why customer service doesn't have to be this bad *The Tangled Web We Weave* James Ball, 2020-10-06 We all see what the internet does and increasingly don't like it but do we know how and more importantly who makes it work that way That's where the real power lays The internet was supposed to be a thing of revolutions As that dream curdles there is no shortage of villains to blame from tech giants to Russian bot farms But what if the problem is not an issue of bad actors ruining a good thing What if the hazards of the internet are built into the system itself That's what journalist James Ball argues as he takes us to the root of the problem from the very establishment of the internet's earliest protocols to the cables that wire it together He shows us how the seemingly abstract and pervasive phenomenon is built on a very real set of materials and rules that are owned financed designed and regulated by very real people In this urgent and necessary book Ball reveals that the internet is not a neutral force but a massive infrastructure that reflects the society that created it And making it work for and not against us must be an endeavor of the people as well **Consumers,**
