CATIA is a three dimensional CAD CAM CAE software developed by Dassault Syst ms France. This textbook is based on CATIA V5 6R2014. Users of earlier releases can use this book with minor modifications. We provide files for exercises via our website. All files are in CATIA V5R20 so readers can open the files using later releases of CATIA V5. Each chapter deals with the major functions of creating 3D features using simple examples and step by step self paced exercises. Additional drawings of 3D parts are provided at the end of each chapter for further self exercises. The final exercises are expected to be completed by readers who have fully understood the content and completed the exercises in each chapter.
