otra noción política de yihad cuyos límites entre el esfuerzo espiritual para ser un buen musulmán y la acción política para promover o imponer la fe han sido objeto de arduas controversias al punto de poner en peligro la propia cosmovisión islámica. Esta obra trata de la historia de las ideas y los conceptos del islamismo desde sus orígenes en el reformismo islámico del siglo XIX hasta la eclosión política del salafismo en el siglo XXI analizando tanto las producciones teóricas de carácter ideológico como su plasmación política de la mano de organizaciones y partidos. Con ello su autora ha querido poner de relieve el interés del islamismo contemporáneo para la historia de las ideas tanto por las discusiones que ha mantenido con el pensamiento occidental liberalismo y marxismo como con la propia tradición islámica. *Diccionario de islam e islamismo* Luz Gómez García, 2019. **Diccionario histórico de la Compañía de Jesús** Charles E. Vocabulario de historia árabe e islámica Felipe Maíllo Salgado, 1996-01-01. De las grandes civilizaciones actuales el islam es junto con la occidental y la oriental una de las más importantes de la humanidad. Su impronta resulta particularmente profunda en la cultura hispana habiendo condicionado hasta el presente la personalidad colectiva de los pueblos peninsulares. Ahora bien comprender el hecho islámico exige un considerable esfuerzo de captación ya que se trata de una civilización que siendo complementaria de la nuestra es muy distinta por eso para no caer en tergiversaciones y distorsiones de todo tipo o tener visiones sesgadas acerca del islam éste debe ser aprendido con conceptos que le son propios con la ayuda de un léxico de naturaleza específica. Esta incuestionable necesidad resulta más acuciante para los estudiantes de Historia habida cuenta que stos en sus estudios deben abordar categorías de pensamiento que traducen sistemas conceptuales diferentes por eso considerando que toda disciplina exige su vocabulario técnico y atendiendo a esa necesidad se ha publicado este repertorio que reúne un material básico de términos relativos o nociones muy variadas como son las categorías sociales las costumbres la religión la política la jurisprudencia la tierra la economía la técnica el arte etc. **Diccionario de historia árabe e islámica** Felipe Maíllo Salgado, 2013. Diccionario de derecho islámico Felipe Maíllo Salgado, 2005. El presente Diccionario de derecho islámico viene a colmar un vacío en el panorama bibliográfico sobre el Islam en el mundo hispánico y aun en el ámbito europeo al no existir en ninguna lengua occidental un repertorio del alcance y las características de la obra que ahora ve la luz. El derecho islámico es con el derecho romano y la Common Law inglesa uno de los sistemas jurídicos que han alcanzado dimensión universal y constituye la expresión de la ley islámica desarrollada a través del conjunto de prescripciones divinas reguladoras de las acciones humanas. Más allá de un conjunto de normas y principios la ley islámica conforma una mentalidad y representa una forma de vida en el seno de las comunidades musulmanas en las que religión y ley están en estrecho contacto de manera que cada costumbre institución relación o actitud está relacionada con ella hasta en los actos más insignificantes e íntimos. De todo ese complejo doctrinal y normativo ofrece este diccionario una exposición sintética y actualizada referida tanto a pocas del pasado como a las sociedades islámicas actuales con atención especial a los códigos de estatuto personal vigentes en los estados modernos cuya población supera hoy día los mil trescientos millones de musulmanes desde el Atlántico a

Filipinas y desde el frica subsahariana hasta la China De imprescindible referencia para los estudiosos del derecho as como para arabistas e islam logos este diccionario interesar igualmente a los no especialistas que podr n encontrar en sus p ginas clara concisa y solvente informaci n sobre asuntos de creciente actualidad tambi n en nuestras sociedades Breve diccionario de terminología islámica Sami Abdel Mordi,2005 **Diccionario del amante del islam** Malek Chebel,2005-04

Despu s de la negra jornada del 11 de septiembre de 2001 el islam ha despertado enormes recelos en todo el mundo y los musulmanes se han visto obligados a justificar su buena fe En Occidente el islam provoca suspicacias y a menudo incomprensi n en particular en pa ses donde su religi n alcanza un elevado nivel de representatividad Malek Chebel aborda con total libertad el conjunto de cuestiones incluso las m s delicadas que caracterizan el islam tales como el reformismo musulm n el repudio de las mujeres el uso del velo o la sexualidad Pero ste es tambi n un libro de historias y gracias a su elaboraci n alfab tica un repertorio de placeres cuyas entradas constituyen otras tantas invitaciones al viaje desierto har n literatura pintura Alhambra Letra tras letra Malek Chebel desgrana los mil y un refinamientos que tanto nos fascinan de la cultura oriental
