Chinas Agrarian Transition Challenges Development:

China's Agrarian Transition René Trappel, 2015-12-18 More than thirty years ago the political turn that brought the dismantling of agricultural collectives and exclusive rights to small plots of farmland for rural families initiated a historic return to smallholding in the People's Republic of China. Today agriculture in China is changing again. In many villages smallholder farming is giving way to large agricultural enterprises. This book explores this latest transformation of Chinese agriculture. It traces how the peasantry's frustration with the farming conditions, the priorities of national and local political agents and the changes in the management of collective land since the return to family based farming have paved the way for a unique Chinese agrarian transition. The argument is based on careful analysis of agricultural politics since the early 1980s and data gathered in three field trips to Shandong, Sichuan and Guizhou Provinces between 2008 and 2010. The findings highlight the importance of institutional path dependencies and strategic government intervention or its absence for economic transformation. China's Agrarian Transition is one of the first comprehensive accounts of the latest developments in agriculture in the People's Republic and will provide a stimulating read for political scientists, sociologists, economists and experts on China interested in the ongoing transformation of China's countryside. *Land Use Transitions and Rural Restructuring in China* Hualou Long, 2020-05-27

Intended as a comprehensive guide to the study of land use and rural development, this book offers detailed descriptions of land use transitions and rural restructuring. To do so, it chiefly focuses on three main aspects, the first of which is the application of geographical perspectives in order to understand rural issues in connection with urbanization, industrialization, globalization and rural vitalization strategies in contemporary China. Secondly, it presents a rich blend of regional and national analyses, detailed explorations of local cases and critical and theoretically informed discussions that address historical paths and future projections. Lastly, it adapts concepts derived from western literature to situations and experiences in rural China and provides empirical evidence from an insider perspective. Given its scope, the book offers a valuable resource for researchers and for graduate students, courses in geography and sociology.

Challenges and Opportunities for Chinese Agriculture Wensheng Chen, 2020-07-06 This book elaborates on the transformation of agricultural development in China into the construction of a resource and ecologically sound society and the coordinated development of industrialization, urbanization and agricultural modernization in China. It focuses on the multiple goals of transforming the Chinese agricultural development model, inner motivations, approaches and supporting systems under environmental and resource constraints. The author endeavors to build a theoretical framework for transforming agricultural development model in the construction of a resource and ecologically sound society. To achieve this, the author addresses successively across seven chapters issues such as the multiple goals of China's agricultural development, transformation under resource and environmental constraints, the transformation of the utilization mode of resources, resource and ecologically sound agriculture oriented agricultural production system transformation, the

transformation of commercialized rural service system and institutional innovations in the resource and ecologically sound agricultural transformation

Challenges to China's Economic Statecraft Yi Edward Yang, 2019-08-09 Fueled by its surging economic strength China has been increasingly utilizing economic tools such as trade foreign aid foreign direct investment and sanctions to pursue strategic and security interests on the world stage This approach known as economic statecraft has thus far received mixed policy results and ambivalent reactions from the international community This book presents a collection of global assessments of China's economic statecraft The contributors to this volume answer three key questions What are the challenges faced by China's economic statecraft Why is China sometimes able to achieve its foreign policy objectives via economic statecraft and sometimes not How do foreign countries particularly the targets of China's economic statecraft respond to China's strategies This comprehensive study examines economic statecraft in the context of more than a dozen nations and international organizations across four continents thus providing a truly global perspective

Agricultural Reform and Rural Transformation in China since 1949 Thomas DuBois, Huaiyin Li, 2016-07-11 Since its founding the government of the People's Republic of China has strived to transform rural production the theme of this volume of History of Contemporary China Fourteen articles translated from the Chinese journal Contemporary History Dangdai Zhongguo shi yanjiu offer both empirical account and theoretical analysis of a broad range of historical events and issues such as the guiding policy framework of the three rural issues the causes and consequences of the deep plowing movement and the development of public canteens during the Great Leap Forward child care enterprises and collectives and private lending in the post Mao era and the changing dynamics of interregional flows of goods and people throughout the second half of the 20th century These studies shed light on the historical origins of some of the agricultural and rural problems in China today

Social Economy in China and the World Ngai Pun, Ben Hok-bun Ku, Hairong Yan, Anita Koo, 2015-08-20 Thirty years of economic transformation has turned China into one of the major players in the global capitalist economy However its economic growth has generated rising problems in inequality alienation and sustainability with the agrarian crises of the 1990s giving rise to real social outcry to the extent that they became the object of central government policy reformulations Contributing to a paradigm shift in the theory and practices of economic development this book examines the concept of social economy in China and around the world It offers to rethink space economy and community in a trans border context which moves us beyond both planned and market economies The chapters address theoretical issues critical reflections and case studies on the practice of social economy in the context of globalization and its attempt to create an alternative modernity Through this the book builds a platform for further cross disciplinary and cross boundary dialogue on the future of social economy in China and the world With examples from Asia North America Latin America and Europe this book will not only appeal to students and scholars of Chinese and Asian social policy and development but also those of social economy from an international perspective
