Congregation Stories And Structures:

Congregation James F. Hopewell, In a unique full scale study of congregational life Hopewell shows that it is narrative the oral tradition that knits a congregation together **Congregation** James F. Hopewell, 2012-01-17 After serving as a missionary in West Africa early in his career with a training in comparative religion and especially Islamic studies James Hopewell became interested in the nature of the local Christian congregation its dilemmas and its strengths He read widely on the subject but the literature did not satisfy him so he spent a sabbatical year in two local churches like an anthropologist in a primitive village As time went on he arrived at the brilliant insight which forms the heart of this book church congregations can only be understood on the basis of the stories members tell of themselves and their community as they struggle for survival and meaning Or to put it more technically congregational culture is a coherent system the structural logic of which is narrative It is when one understands the story of a congregation one can see why some changes are accepted by it some are not why it is strong in some areas and weak in others Only if that basis has been discovered is it possible really to work with a local church James Hopewell's book also contains much valuable information about how to analyse congregations James Hopewell did not live to finish his book he died of cancer in 1984 His own story of coping with that cancer is bravely and movingly woven into the stories of congregations The result is one of the seminal books of the decade James Hopewell was Professor of Religion and the Church at the Candler School of Theology Emory University His book was posthumously edited by Barbara Wheeler President of Auburn Theological Seminary New York With a Foreword by John Bowden **The Stories Congregations Tell** Joel Thiessen, Arch Chee Keen Wong, Mark D. Chapman, 2024-11-26 Congregations are story telling communities The stories they tell which link a community's past present and future can play an important role in whether a congregation flourishes or not The Stories Congregations Tell features detailed case study research from seven dynamic Canadian congregations across theological traditions and geographical regions Readers will encounter narratives that congregations tell themselves through a myriad of congregational and social transitions accounts that shape how congregations interpret frame approach and ultimately flourish in ministry On the surface congregational descriptions appear specific to local contexts Yet cultural analysis reveals several commonalities across distinct congregational cultures that appear resilient in the face of challenge and change These factors include visionary leadership clear congregational identity rooted in spiritual formation hospitable community among members and intentional systems and structures oriented toward a congregation's mission This book offers social scientific analysis and theological reflection on the stories congregations tell and the function those stories play for a congregation's culture along with practical and hopeful applications to arise from this research **The Practicing Congregation** Diana Butler Bass, 2004-09-01 The conventional wisdom about mainline Protestantism maintains that it is a dying tradition irrelevant to a postmodern society unresponsive to change and increasingly disconnected from its core faith tenets In her provocative new book historian and

researcher Diana Butler Bass argues that there are signs that mainline Protestant churches are indeed changing finding a new vitality intentionally grounded in Christian practices and laying the groundwork for a new type of congregation The Practicing Congregation tracks these changes by looking at the overall history of American congregations noting the cultural trends that have sparked change and providing evidence of how mainline churches are reappropriating traditional Christian practices The signs of life that Bass identifies lead the reader beyond the crumbling liberal vs conservative dualities to a more nuanced and fluid understanding of the shape of contemporary ecclesiology and faithfulness In so doing she helps readers understand tradition in new ways and creates an alternative path through the culture wars that today arrest the energies of most denominations Invigorated by stories from Bass s own experience The Practicing Congregation provides a hopeful and exciting vision for the church The imaginative retraditioning she identifies and celebrates will guide pastors and other leaders on this pilgrimage of creating church and convincingly counter the naysayers that long ago gave up on the viability of the mainline church

The Catholic Charismatic Renewal in the UK Keith Chappell,2023-10-20 Combining ethnographic research with theological analysis this book explores how the Catholic Charismatic Renewal CCR one of the largest new movements within the global Catholic Church has developed in contemporary Britain and Northern Ireland Drawing on extensive fieldwork this study analyses the beliefs behaviour and worldviews of CCR members and considers how these relate to key theological themes in the movement s unique encounter between Pentecostalism and Catholicism The author explores the extent to which the CCR has been integrated into the mainstream of the Catholic Church and how the movement s members have adapted their theology over time Painting a picture of a diverse community this book enriches understanding of the CCR and contemporary Christianity in Britain

Ritual Practices in Congregational Identity Formation Timothy D. Son,2014-05-08 Ritual Practices in Congregational Identity Formation investigates the educational roles of ritual practices in the process of congregational identity formation Son identifies and analyzes various kinds of Christian rituals with respect to how rituals influence the formational processes of a congregation s identity Based on Victor Turner s ritual theory this book also investigates the pedagogical and transformative efficacies of ritual practices within the dynamics of congregational education

Leadership Formation in the African Context Samuel Deressa,2022-03-25 The teachings of Christian leadership have been dominated by a focus on the influence of a leader on its followers Samuel Deressa s new book Leadership Formation in the African Context highlights how an African concept of community and holistic approach to ministry provides a biblically sound approach to understanding leadership formation and practice in this new age This book links the issue of missional

leadership with the life of the congregation It provides theological and practical insights into how we can understand leadership formation in contexts where churches are engaged in the Missio Dei as a community of believers *Sermon Listening* Enoh Šeba,2021-06-30 Preaching is an integral part of every church service and its purpose has always been to edify encourage and to emphasize the positive effects of coming together as a people of God Yet there remains an inconsistency between the intended goals of preaching and the subjective perception of the listeners In this homiletical study Dr Enoh eba provides fresh insight into the turn to the listener model and offers a theologically sustainable warrant mandate for the transformation of the preaching practice through a stronger involvement of the congregation While grounding the research in the experience of Croatian Baptists Dr eba highlights practical suggestions for both listeners and preachers that are transferrable across contexts This important work reveals that preaching can and should be transformed into a truly congregational practice that will affirmatively affect the dynamics of ecclesial life This book will spark conversations and induce small scale changes on a variety of levels while bridging the gap between preachers and their listeners
