Gathering Disciples Myra Blyth, Andy Goodliff, 2017-02-08 This collection of essays by British Baptists honors the work of Christopher Ellis amongst the Baptist community recognizing in particular the contribution he has made to the practice and theology of Free Church worship The book takes a selection of his hymns as a starting point for reflection on areas of worship discipleship the sacraments and theology Frozen Institutions Bruce N. Kaye, 2022-07-26 Thanks for the memories well maybe not It has been hard work getting over the break up of the fifteen hundred year Anglican marriage of church and state the so called English Christendom It is still a work in progress because the marriage left behind so many unconscious assumptions about power institutions and community relations The first group of essays in this book challenges some of the frozen elements in church institutions in particular habits of orthodoxy catholicity and canonical Scripture They are framed in the context of the struggles of the Anglican Communion The second set of essays refer to the Anglican Church of Australia and some attempts at de frosting its institutions These are lectures and papers given across Australia mostly during the author s time as General Secretary of the Anglican Church of Australia The last essay is an account of a current struggle over the blessing of a same sex couple legally married under recently changed civil law It illustrates the role of the constitution of the church in this dispute The loose federation of dioceses in the constitution has generally enabled dioceses to live separately The danger in this has been the specter of a church made up of diocesan silos rather than of engaged fellowship However the federal structure does not need to work that way Indeed in the present conflict situation this very looseness could be used to provide space for more respectful engagement How this crisis is handled will be an early clue as to whether the church is up to it *Prayer in John's Farewell Discourse* Scott Adams, 2020-03-12 It was reported that a doctoral student at Princeton once asked Albert Einstein What is there left in the world for original dissertation research He replied by saying Find out about prayer Somebody must find out about prayer Since Einstein s day a great deal has been written on the topic of prayer in general However relatively little has been written about prayer in John s Farewell Discourse in particular Therefore this analysis not only seeks to understand the relationship between Johannine and Jewish Greco Roman and Christian prayer traditions but also seeks to discern the unique function and application of prayer as it is prescribed in the Farewell Discourse

of pleasure Where might we find it why might we look for it and who is decadence for This book is the first monographic study of decadence in theatre and performance Adam Alston makes a passionate case for the contemporary relevance of decadence in the thick of a resurgent culture war by focusing on its antithetical relationship to capitalist led growth progress and intensified productivity He argues that the qualities used to disparage the study and practice of theatre and performance are the very things we should embrace in celebrating their value namely their spectacular uselessness wastefulness outmodedness and abundant potential for producing forms of creativity that flow away from the ends and excesses of capitalism Alston covers an eclectic range of examples by Julia Bardsley UK Hasard Le Sin Finland jaamil olawale kosoko USA Toco Nikaido Japan Martin O'Brien UK Toshiki Okada Japan Marcel I Ant nez Roca Spain Normandy Sherwood USA The Uhuruverse USA Nia O Witherspoon USA and Wunderbaum Netherlands Expect ruminations on monstrous scenographies catatonic choreographies turbo charged freneticism visions of the apocalypse and what might lie in its wake

Trade Agreements, Investment Protection and Dispute Settlement in Latin America Belén Olmos Giupponi, 2019-01-15 In recent years many Latin American countries have liberalized their trade and investment regimes opening their markets to free international trade At the same time regional economic integration has boomed This book is the first systematic analysis in any language of these globally significant developments and the first comprehensive legal study of dispute settlement relating to foreign direct investment and trade in the region Undertaken by an expert in the field this study describes the current institutional framework of Latin American trade and investment law as well as

specialized legal issues in the region's various economic blocs. Among the many issues and topics raised the following may be mentioned: questions of compliance and procedure in the context of today's international investment regime; formalized dispute settlement mechanisms; alternative dispute resolution channels including dispute prevention practices; legitimacy and transparency of the various dispute settlement mechanisms; inclusion of social clauses in trade and investment agreements; and avoidance of investment treaty liability. In order to offer a most accurate view of the effectiveness of the protection granted to foreign investors, special attention is given to relevant case law completely covering the period 1985-2015 as well as arbitral precedents before international bodies and in jurisdictions across the region. The book concludes with a critical examination of the future prospects of international economic law dispute settlement in the Americas, pinpointing current trends and unveiling future possible avenues for change. As an in-depth explication of how the rules and principles of international economic law are applied in Latin America, this book has no peers. For practitioners drafting business agreements with Latin American companies or needing to ensure availability of appropriate remedies, this book's detailed insight into international litigation in the region, including case law illustrating the main topics, will prove to be of immeasurable value. Professionals in the arbitral community worldwide as well as governments, dedicated research centres and officials in international organizations will welcome this book's model for comparative integration studies, systematic guidance on procedure and case law of domestic and international courts and arbitral tribunals, and extensive treatment of dispute settlement mechanisms in trade and investment agreements.
