Alexander S. Kulikov, Sergei O. Kuznetsov, Pavel Pevzner, 2014-06-12 This book constitutes the refereed proceedings of the 25th Annual Symposium on Combinatorial Pattern Matching CPM 2014 held in Moscow Russia in June 2014 The 28 revised full papers presented together with 5 invited talks were carefully reviewed and selected from 54 submissions The papers address issues of searching and matching strings and more complicated patterns such as trees regular expressions graphs point sets and arrays The goal is to derive combinatorial properties of such structures and to exploit these properties in order to achieve superior performance for the corresponding computational problems The meeting also deals with problems in computational biology data compression and data mining coding information retrieval natural language processing and pattern recognition *Combinatorial Pattern Matching* Gregory Kucherov, Esko Ukkonen, 2009-06-18 This book constitutes the refereed proceedings of the 20th Annual Symposium on Combinatorial Pattern Matching CPM 2009 held in Lille France in June 2009 The 27 revised full papers presented together with 3 invited talks were carefully reviewed and selected from 63 submissions The papers address all areas related to combinatorial pattern matching and its applications such as coding and data compression computational biology data mining information retrieval natural language processing pattern recognition string algorithms string processing in databases symbolic computing and text searching

Combinatorial Pattern Matching Raffaele Giancarlo, David Sankoff, 2003-06-29 This book constitutes the refereed proceedings of the 11th Annual Symposium on Combinatorial Pattern Matching CPM 2000 held in Montreal Canada in June 2000 The 29 revised full papers presented together with 3 invited contributions and 2 tutorial lectures were carefully reviewed and selected from 44 submissions The papers are devoted to current theoretical and algorithmic issues of searching and matching strings and more complicated patterns such as trees regular expression graphs point sets and arrays as well as to advanced applications of CPM in areas such as Internet computational biology multimedia systems information retrieval data compression and pattern recognition **Combinatorial Pattern Matching** Martin Farach-Colton, 1998-07-08 This book constitutes the refereed proceedings of the 9th Annual Symposium on Combinatorial Pattern Matching CPM 98 held in Piscataway NJ USA in July 1998 The 17 revised full papers presented were carefully reviewed and selected for inclusion in the book The papers address all current issues in combinatorial pattern matching dealing with a variety of classical objects to be matched as well as with DNA coding

Combinatorial Pattern Matching Juha Kärkkäinen, Jens Stoye, 2012-06-13 This book constitutes the refereed proceedings of the 23rd Annual Symposium on Combinatorial Pattern Matching CPM 2012 held in Helsinki Finland in July 2012 The 33 revised full papers presented together with 2 invited talks were carefully reviewed and selected from 60 submissions The papers address issues of searching and matching strings and more complicated patterns such as

trees regular expressions graphs point sets and arrays The goal is to derive non trivial combinatorial properties of such structures and to exploit these properties in order to either achieve superior performance for the corresponding computational problems or pinpoint conditions under which searches cannot be performed efficiently The meeting also deals with problems in computational biology data compression and data mining coding information retrieval natural language processing and pattern recognition

Combinatorial Pattern Matching Alberto Apostolico, Masayuki Takeda, 2003-08-02 The papers contained in this volume were presented at the 13th Annual Symposium on Combinatorial Pattern Matching held July 3-5 2002 at the Hotel Uminonakamichi in Fukuoka Japan They were selected from 37 abstracts submitted in response to the call for papers In addition there were invited lectures by Shinichi Morishita University of Tokyo and Hiroki Arimura Kyushu University

Combinatorial Pattern Matching CPM addresses issues of searching and matching strings and more complicated patterns such as trees regular expressions graphs point sets and arrays in various formats The goal is to derive non trivial combinatorial properties of such structures and to exploit these properties in order to achieve superior performance for the corresponding computational problems On the other hand an important goal is to analyze and pinpoint the properties and conditions under which searches cannot be performed efficiently Over the past decade a steady flow of high quality research on this subject has changed a sparse set of isolated results into a full fledged area of algorithmics This area is continuing to grow even further due to the increasing demand for speed and efficiency that stems from important applications such as the World Wide Web computational biology computer vision and multimedia systems These involve requirements for information retrieval in heterogeneous databases data compression and pattern recognition The objective of the annual CPM gathering is to provide an international forum for research in combinatorial pattern matching and related applications

Combinatorial Pattern Matching Martin Farach-Colton, 2006-04-10 This book constitutes the refereed proceedings of the 9th Annual Symposium on Combinatorial Pattern Matching CPM 98 held in Piscataway NJ USA in July 1998 The 17 revised full papers presented were carefully reviewed and selected for inclusion in the book The papers address all current issues in combinatorial pattern matching dealing with a variety of classical objects to be matched as well as with DNA coding
