Complete Book of Urban Combatives Lee Morrison, 2015-02-01 The Complete Book of Urban Combatives is based on what Lee Morrison teaches in his Urban Combatives UC curriculum Morrison formed UC after 22 years of researching various Asian and Western methods of combat incorporating the teachings of W E Fairbairn and E A Sykes Charles Nelson Geoff Thompson Bob Kasper and Kelly McCann to name just a few Morrison's reality based UC is neither a sport nor an art It is designed to counter street violence Having been in his share of real blood and snot fights first as a somewhat misguided youth and later as a doorman at pubs and nightclubs Morrison knows that 30 seconds on the street is worth three years in the dojo any day of the week His hard earned experience also taught him that no one system has all the answers necessitating that you keep an open mind and stay on the cutting edge of combatives At UC the essence of good self protection is threefold Master a few well honed personal security concepts Add a realistic understanding of your enemy Gain an understanding of fear and how you will react under pressure In this book Morrison includes attribute developing drills to help you develop these and other key combatives principles as well as the combative mentality that must accompany every aspect of your training The goal is to provide you with a functional game plan that can be tapered to your specific needs whether for personal protection or for law enforcement military or executive protection duties

Basics and Principles of Self-Defense Bernd Irmscher, 2024-01-23 However when the topic of self defense comes up many people often ask themselves questions such as How would I behave myself in such a situation What can or may I do what is allowed or forbidden How can I prepare for such a situation This book is aimed at interested readers of all ages and is intended to help to find answers to these questions Furthermore it should give the reader a good first overview of the broad topic of self defense In this book principles and techniques for typical self defense situations are described that can still work under stress The techniques presented here are intended only be understood as a recommendation from a number of different possibilities and not at all as the best solution in a certain self defense situation Also it is not about to emphasize one particular of the many different fighting styles but rather to create an understanding that in a self defense situation neither one nor the other fighting style is the better one The only thing that counts in the end is Any solution that works in an emergency is a good solution
