

Deception And Democracy In Classical Athens Deception And Democracy In Classical Athens

Thomas R. Martin

Deception And Democracy In Classical Athens Deception And Democracy In Classical Athens:

Deception and Democracy in Classical Athens Jon Hesk, 2000-11-23 This book first published in 2000 is a full length study of the representation of deceit and lies in classical Athens Dr Hesk traces the ways in which Athenian drama democratic oratory and elite prose writing construct and theorize a relationship between dishonesty and civic identity He focuses on the ideology of military trickery notions of the noble lie and the developing associations of rhetorical language with deceptive communication Deception and Democracy in Classical Athens combines close analysis of Athenian texts with lively critiques of modern theorists and classical scholars Athenian democratic culture was crucially informed by a nuanced anxious and dynamic discourse on the problems and opportunities which deception presented for its citizenry Mobilizing comparisons with twentieth century democracies the author argues that Athenian literature made deception a fundamental concern for democratic citizenship This ancient discourse on lying highlights the dangers of modern resignation and postmodern complacency concerning the politics and morality of deception **Demosthenes the Orator** Douglas M.

MacDowell, 2009-12-03 In the most comprehensive account available of the texts of Demosthenes Douglas M MacDowell describes and assesses all of the great orator's speeches including those for the lawcourts as well as the addresses to the Ekklesia Besides the genuine speeches MacDowell also covers those which have probably wrongly been ascribed to Demosthenes such as the ones written for delivery by Apollodorus and he considers too the Epistles the Prooemia and the puzzling Erotic Speech *The Cambridge Companion to Ancient Rhetoric* Erik Gunderson, 2009-07-09 A comprehensive overview of rhetorical practice and theory in Graeco Roman antiquity from Homer to early Christianity aimed primarily at students and non specialists It examines the relationship between rhetoric and other competing verbal arts and also investigates the role of rhetoric in social and political life Demosthenes' "On the Crown" James J. Murphy, 2016-10-04

Demosthenes speech On the Crown 330 B C E in which the master orator spectacularly defended his public career has long been recognized as a masterpiece The speech has been in continuous circulation from Demosthenes lifetime to the present day and multiple generations have acclaimed it as the greatest speech ever written In addition to a clear and accessible translation Demosthenes On the Crown Rhetorical Perspectives includes eight essays that provide a thorough analysis based on Aristotelian principles of Demosthenes superb rhetoric The volume includes biographical and historical background on Demosthenes and his political situation a structural analysis of On the Crown and an abstract of Aeschines speech Against Ctesiphon to which Demosthenes was responding Four essays by contributors analyze Demosthenes speech using key elements of rhetoric defined by Aristotle thos the speaker's character or authority pathos or emotional appeals logos or logical appeals and lexis a speaker's style An introduction and an epilogue by Murphy frame the speech and the rhetorical analysis of it By bringing together contextual material about Demosthenes and his speech with a translation and astute rhetorical analyses Demosthenes On the Crown Rhetorical Perspectives highlights the oratorical artistry of Demosthenes and

provides scholars and students with fresh insights into a landmark speech The Politics of Sincerity Elizabeth Markovits, 2010-11 A growing frustration with spin doctors doublespeak and outright lying by public officials has resulted in a deep public cynicism regarding politics today It has also led many voters to seek out politicians who engage in straight talk out of a hope that sincerity signifies a dedication to the truth While this is an understandable reaction to the degradation of public discourse inflicted by political hype Elizabeth Markovits argues that the search for sincerity in the public arena actually constitutes a dangerous distraction from more important concerns including factual truth and the ethical import of political statements Her argument takes her back to an examination of the Greek notion of parrhesia frank speech and she draws from her study of the Platonic dialogues a nuanced understanding of this ancient analogue of straight talk She shows Plato to have an appreciation for rhetoric rather than a desire to purge it from public life providing insights into the ways it can contribute to a fruitful form of deliberative democracy today **Demosthenes, Speeches 20-22**

Demosthenes., 2010-09-01 This is the twelfth volume in the Oratory of Classical Greece This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline These translations are especially designed for the needs and interests of today's undergraduates Greekless scholars in other disciplines and the general public Classical oratory is an invaluable resource for the study of ancient Greek life and culture The speeches offer evidence on Greek moral views social and economic conditions political and social ideology law and legal procedure and other aspects of Athenian culture that have recently been attracting particular interest women and family life slavery and religion to name just a few Demosthenes is regarded as the greatest orator of classical antiquity This volume contains three important speeches from the earliest years of his political career Against Leptines a prosecution brought against a law repealing all exemptions from liturgies Against Meidias a prosecution for aggravated insult hybris brought against an influential politician and Against Androtion an indictment of a decree of honors for the Council of Athens Edward M Harris provides contemporary English translations of these speeches two of which Leptines and Androtion have not been translated into English in over sixty years along with introductions and extensive notes that take account of recent developments in Classical scholarship **Pericles** Thomas R. Martin, 2016-07-25 Pericles was the most famous leader of the most famous ancient Greek democracy and also the most controversial in his own time and ever since Was he a brutal imperialist ready to oppress other Greeks or a clear eyed defender of Athens need for power to survive in a relentlessly hostile world How did his intellectual training in ideas that many Athenians regarded as dangerous make him the most persuasive leader Athenian democracy ever knew Why was his personal lifestyle so idiosyncratic How should we evaluate his responsibility for the suffering and loss of the Peloponnesian War Thomas R Martin's unique emphasis on the effect on Pericles of his family's notorious history his youthful experiences as a wartime refugee and his unusual education reveals a brilliant politician whose hyper rationality could not in the end protect him or his

community from tragedy **Classical Greek Oligarchy** Matthew Simonton, 2019-03-26 Classical Greek Oligarchy thoroughly reassesses an important but neglected form of ancient Greek government the rule of the few Matthew Simonton challenges scholarly orthodoxy by showing that oligarchy was not the default mode of politics from time immemorial but instead emerged alongside and in reaction to democracy He establishes for the first time how oligarchies maintained power in the face of potential citizen resistance The book argues that oligarchs designed distinctive political institutions such as intra oligarchic power sharing targeted repression and rewards for informants to prevent collective action among the majority population while sustaining cooperation within their own ranks To clarify the workings of oligarchic institutions Simonton draws on recent social science research on authoritarianism Like modern authoritarian regimes ancient Greek oligarchies had to balance coercion with co optation in order to keep their subjects disorganized and powerless The book investigates topics such as control of public space the manipulation of information and the establishment of patron client relations frequently citing parallels with contemporary nondemocratic regimes Simonton also traces changes over time in antiquity revealing the processes through which oligarchy lost the ideological battle with democracy for legitimacy Classical Greek Oligarchy represents a major new development in the study of ancient politics It fills a longstanding gap in our knowledge of nondemocratic government while greatly improving our understanding of forms of power that continue to affect us today Greek Political Imagery from Homer to Aristotle Roger Brock, 2013-05-23 The great helmsman the watchdog of the people the medicine the state needs all these images originated in ancient Greece yet retain the capacity to influence an audience today This is the first systematic study of political imagery in ancient Greek literature history and thought tracing it from its appearance influenced by Near Eastern precursors in Homer and Hesiod to the end of the classical period and Plato s deployment of images like the helmsman and the doctor in the service of his political philosophy The historical narrative is complemented by thematic studies of influential complexes of images such as the ship of state the shepherd of the people and the state as a household and enhanced by parallels from later literature and history which illustrate the persistence of Greek concepts in later eras *Lysias 21* Aggelos Kapellos, 2014-09-12 Lysias 21st speech On a charge of taking bribes is an important example of Attic oratory that sheds significant light on Classical history and society Delivered after the restoration of democracy in 402 B C E this speech provides information that is critical for our understanding of the relationship between the Athenian demos and aristocrats Athenian civic institutions e g taxation liturgies and conscription religious beliefs moral values political behavior and in particular of the legal and rhetorical treatment of embezzlement and bribery It also supplies unique information about the military engagement of the Athenians at Aegospotami and the role of Alcibiades in the political life of Athens Despite its importance however Lysias speech has never been the subject of an extensive study in its own right This volume seeks to fill that gap by presenting the first systematic commentary on this speech The author puts much emphasis on its structure strategy and argumentation focusing

especially on the tension between the actual practices of the anonymous client of the logographer and civic ideals invoked in the present case. The book is intended to be of interest to classicists, ancient historians, and political theorists, but also to the general reader.

When people should go to the book stores, search creation by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the book compilations in this website. It will entirely ease you to look guide **Deception And Democracy In Classical Athens Deception And Democracy In Classical Athens** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you intention to download and install the Deception And Democracy In Classical Athens Deception And Democracy In Classical Athens, it is enormously simple then, back currently we extend the associate to buy and create bargains to download and install Deception And Democracy In Classical Athens Deception And Democracy In Classical Athens therefore simple!
