Developments In Tourism Research Routledge Advances In Tourism:

Tourism and Development Richard Sharpley, David J. Telfer, 2002-04-30 The development of tourism is frequently justified on the basis of its potential contribution to the broader socio economic development of destination areas Indeed tourism is generally considered an effective vehicle of development yet the meaning and objectives of development and the extent to which it can be achieved through tourism is rarely questioned Moreover the relationship between tourism and development remains an under represented area of study and research This book addresses this gap in the literature by challenging many of the widelyheld assumptions about tourism s developmental contribution In the first part a theoretical link is established between the discrete yet interconnected disciplines of tourism studies and development studies More specifically the meaning of development and successive development paradigms are considered within the context of tourism This provides a conceptual foundation for the second part of the book which addresses a number of fundamental issues related to tourism s potential contribution to development These include issues of economic development regional development socio cultural development and environmental development Finally the third part focuses upon barriers to tourism induced development arguing that a new political economy of tourism the consumption of tourism and the dominance of the sustainable development paradigm represent significant counterpoints to overly simplistic models of tourism s potential contribution to development

Contemporary Issues in Tourism Development Douglas G. Pearce, Richard Butler, 1999 This work combines a study of contemporary issues in tourism development with a close examination of approaches to tourism research Looking beyond the much studied mass tourism industries leading international academics who are members of the International Academy for the Study of Tourism explore new issues raised by emerging tourist destinations such as Ghana Samoa Vietnam and India s Bhyundar Valley A fascinating work Contemporary Issues in Tourism Development discusses a wide range of topics such as reasons for development tourism development as a strategy for urban revitalization tourism s links to heritage conservation and regional development sustainability and the adverse impacts of development cultural considerations and community participation the importance of context for individual tourism projects

Tourism Destination Development Markus Pillmayer, Marion Karl, Marcus Hansen, 2024-07-22 Although destination management is regarded as the supreme discipline in tourism management little attention is paid to destination development especially from a geographical perspective This book analyses destination development and proposes key strategies for a positive destination development in the future in regard to sustainability accessibility and economic prosperity International scholars from a range of disciplines explore current issues in destination development and propose solutions that can help policy makers prepare for future challenges This book includes case studies from all around the globe to illustrate the diversity of destination development This book thus offers students colleagues from the scientific community as well as practitioners and political decision makers numerous suggestions considerations and decision making aids with regard to

destination development **Tourism Enterprises and the Sustainability Agenda across Europe** Mr David Leslie, 2012-11-28 With the emphasis on small enterprises this book provides a comprehensive analysis of what is happening across Europe in terms of sustainable development objectives and sustainability in the context of tourism supply. Each contribution in this edited collection addresses specific aspects of tourism enterprise activity within the overall context of policy and practice aimed at improving environmental performance. A series of broader issues are examined such as EU environmental policy and initiatives as they relate to tourism social issues such as equity and employment and transport followed by detailed examples of specific case studies. Well informed and based on current research this book is informative and invaluable to any one studying tourism and hospitality today particularly those involved directly or indirectly in the fields of policy planning and development.

Tourism Enterprise David Leslie, 2014-11-26 The environmental quality and popularity of any tourist destination is the outcome of sustained development shaped by the socio economic and physical dimensions of the local environment. Protecting the living landscape requires recognizing, promoting and developing the links between economic, social and environmental objectives. This book therefore examines the tourism business in terms of greening the local economy, people and environment, establishing the green agenda and investigating its application to the tourism sector.

Developments in Tourism Research David Airey, John Tribe, 2007-09-20 This book aims to be a showcase for cutting edge research offering a high edited selection of the best paper submitted to the 2006 tourism conference at the University of Surrey which itself is a celebration of 40 years of tourism education at the University. The emphasis of the book is on contributions which offer new insights and approaches to tourism research rather than case studies or applications of existing research methods to new contexts and this is where the book is unique.

Tourism Research Douglas Pearce, Richard Butler, 2010-03-31 Leading international tourism scholars from a range of disciplines analyse what progress has been made in tourism research in the last two decades and where research might go in the future.

New Metropolitan Perspectives Francesco Calabrò, Lucia Della Spina, Carmelina Bevilacqua, 2018-05-18 This book explores the role of cities and the urban-rural linkages in spurring innovation embedded in spatial planning, strategic and economic planning and decision support systems. In particular, the contributions examine the complexity of the current transitional phase towards achieving smart, inclusive and sustainable growth and investigate the post-2020 UE cohesion policy. The main topics include Innovation dynamics and smart cities, Urban regeneration, community-led and PPP, Inland and urban area development, Mobility, accessibility, infrastructures, Heritage, landscape and Identity, and Risk management, Environment and Energy. The book includes a selection of articles accepted for presentation and discussion at the 3rd International Symposium *New Metropolitan Perspectives* Isth2020 held at the University of Reggio Calabria, Italy, on 22-25 May 2018. The symposium, which addressed the challenge of local knowledge and innovation dynamics towards territory attractiveness, hosted the final event of the MAPS LED project under Horizon2020 MSCA RISE.

Progress in Economics

Research, Volume 11 Albert Tavidze, 2007 This series spans the globe presenting leading research in economics It is perhaps a sign of the times that economic weapons seem to be as powerful as or more so than tanks International applications and examples of economic progress are invaluable in the world of the 21st century **Technological Innovation and AI for Sustainable Development in Events and Festivals** Anukrati Sharma, Jeetesh Kumar, Shruti Arora, 2025-05-30 From sustainable event planning to the influence of VR AI and mobile applications on tourist behaviour this book explores the dynamic landscape where innovation meets tradition It studies the intersection of green technologies sustainable infrastructure and the delicate balance between cutting edge tools and the intrinsic emotional aspects of human engagement Aligned with the United Nations 17 Sustainable Development Goals the book highlights AI s potential to drive meaningful contributions to a sustainable future It anticipates the imminent transformation of festivals and events through technological innovation and AI implementation It will allow the reader to gain insights into how automation streamlines logistics optimizes marketing efforts and enhances the overall attendee experience
