Damaged Parents An Anatomy Of Child Neglect:

Damaged Parents Norman A. Polansky, Mary Ann Chalmers, Elizabeth Werthan Bittenwieser, David P.

Williams, 1983-08-15 Most of us are unaware of child neglect even when we are witnessing it Neglect is a matter of things undone of inaction compounded by indifference Since it goes on at home it is a very private sin It is little wonder that most of the public is unaware of poor child caring Its ignorance is even greater as to how widespread the problem is But this is not a blissful ignorance The public may not want to attend to child neglect but it lives with the distortions of human personality that are left in its wake from chapter 1 of Damaged Parents Norman Polansky and his colleagues have produced a truly remarkable book One of the consequences of the relative invisibility of child neglect is that we also know less about it But this book will help to correct that for it contains reports of findings from two systematic efforts to define measure classify and understand child neglect Thomas M Young Social Service Review Damaged Parents Norman A. Symposium Proceedings, June 27-28, 1993, Chicago, Illinois, 1993 Children at Risk Robert T. Ammerman, Michel Hersen, 2013-03-09 During the past decade a dramatic increase in research and clinical interest has risen in child abuse and neglect This recent growth in awareness is due at least partly to the alarming statistics documenting the incidence of child maltreatment Almost one million children are reported to be abused and neglected each year and many experts believe that this figure underestimates the true incidence Indeed recent surveys suggest that almost 15 million children are the targets of domestic violence every year A significant proportion of these children die as a function of this maltreatment whereas the remainder suffer a variety of short and long term deleterious medical and psychosocial consequences Child maltreatment is a universal problem that has precipitated a mobilization of effort from a variety of disciplines including psychology medicine psychiatry social work sociology and criminology Particular attention has been directed toward the prevention and treatment of child abuse and neglect Such endeavors require the screening of large groups in order to identify families that are at high risk for engaging in such behavior Delineating those characteristics that differentiate high from low risk families and children is one of the obvious priorities for researchers and clinicians in the future This book therefore carefully considers

the status of research on risk factors of abuse and neglect in children. Added data undoubtedly will have practical value for subsequent intervention efforts.

Social, Psychological, and Forensic Perspectives on Sexual Abuse Gopalan, Rejani Thudalikunnil, 2018-01-15 Sexual abuse a topic still struggling to break free of its social taboos is an issue that must be addressed, assessed and discussed in order to further efforts for prevention and treatment. *Social Psychological and Forensic Perspectives on Sexual Abuse* is an important resource that comprehensively examines the prevalence, assessment, causes and impacts of sexual violence from cultural, legal, psychosocial, theoretical and medical viewpoints. Discussing difficult but relevant issues including forensic assessment, legal ramifications, mental health, risk assessment and effects on family life, this book is geared towards researchers, mental health professionals, clinicians and special educators seeking current research on prevention, assessment and rehabilitation in sexual abuse.

Neglected Children Howard Dubowitz, 1999-01-20 Child neglect is the most common type of child maltreatment. Substantial evidence indicates that the morbidity and mortality associated with neglect are significant, with enormous costs to the children involved and to society. Yet there is no major text focused exclusively on child neglect. *Neglected Children* presents a comprehensive and critical portrait of the phenomenon of neglect based on theory, research and clinical practice experience. The editor and the contributing authors present a rich interdisciplinary conceptualization with a broad view of neglect moving far beyond the current child welfare focus on parental omissions in care. This broader view is essential to seriously addressing the complex and pervasive underpinnings of neglect.

Parenting in Poor Environments Deborah Ghate, Neal Hazel, Policy Research Bureau (Great Britain), 2002 A study of the effect of poor environments on parenting. The authors explore what professionals and policy makers can do to assist families living in poverty.

Family Violence Cliff Roberson, Paul Harvey Wallace, 2016-08-04 *Family Violence: Legal, Medical and Social Perspectives* examines the entire spectrum of family violence focusing on social processes and social relationships. The eighth edition is a multidisciplinary introduction to the study of domestic violence that guides readers to a better understanding of the challenges involved in reducing or eliminating violence. The new edition includes more information on PTSD and head trauma, a new section on children witnessing domestic violence, more international perspectives which allow students to understand that family violence crosses borders and cultures, and a series of Promising Practices boxes that bring professional knowledge and accomplishments into the classroom.

Treatment of Child Abuse Robert M. Reece, Rochelle F. Hanson, John Sargent, 2014-06-15 New and expanded material includes information on Bullying, Sanctuary Model of trauma informed care, Long term medical management, Appropriate use of psychopharmacology, Importance of self care for professionals. *Treatment of Child Abuse* is an important resource for mental health professionals, family physicians, pediatricians, emergency department physicians, physician assistants and nurses, as well as child advocate professionals, social workers and lawyers.

Parenting and Child Development in Nontraditional Families Michael E. Lamb, 1998-10-01 The goal of this volume is to discuss in depth the ways in which various deviations from traditional family

styles affect childrearing practices and child development Each of the contributors illustrates the dynamic developmental processes that characterize parenting and child development in contexts that can be deemed nontraditional because they do not reflect the demographic characteristics of the traditional families on which social scientists have largely focused The contributors deal with the dynamics and possible effects of dual career families families with unusually involved fathers families characterized by the occurrence of divorce single parenthood remarriage poverty adoption reliance on nonparental childcare ethnic membership parents with lesbian or gay sexual orientations as well as violent and or neglectful parents By doing so the authors provide thoughtful literate and up to date accounts of a diverse array of nontraditional or traditionally understudied family types All the chapters offer answers to a common question How do these patterns of childcare affect children their experiences and their developmental processes The answers to these questions are of practical importance relevant to a growing proportion of the families and children in the United States but also have significant implications for the understanding of developmental processes in general As a result the book will be of value to basic social scientists as well as those professionals concerned with guiding and advising clients and public policy
