(ed.), 2025-02-21 This volume provides a human centered perspective building on the expanding horizon from biological and economic management to interdisciplinary and transdisciplinary aquatic resources governance It was prepared in celebration of the tenth anniversary of the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries in the Context of Food Security and Poverty Eradication SSF Guidelines It also provides an update of Berkes book Coasts for People Interdisciplinary Approaches to Coastal and Marine Resource Management Routledge 2015 The original chapters of the book served as the first draft of seven of the chapters all of them rewritten with multiple authors total of 20 co authors and with an explicit focus on small scale fisheries through the lens of the SSF Guidelines Over the years aquatic resources governance has evolved For example the term resource which carried a sense of free goods and commodification of nature shifted in meaning to include biodiversity and ecosystem services The term management changed to include participation complexity and uncertainty The volume focuses on several subject areas as the key elements of an interdisciplinary science of aquatic governance These include holism and ecosystems view Chapter 2 coupled humans and environment systems Chapter 3 fishers knowledge Chapter 4 commons dilemmas Chapter 5 co management Chapter 6 livelihoods and sustainability Chapter 7 fishery systems resilience Chapter 8 and ecosystem and human rights based management Chapter 9 These interdisciplinary social science oriented approaches have shaped recent thinking about small scale fisheries helping empower fishers and fishworkers towards a more inclusive equitable sustainable and resilient subsector They also help meet Sustainable Development Goals particularly SDG1 No Poverty and SDG2 Zero Hunger consistent with the emphasis of SSF Guidelines on poverty eradication and food security The intended audience for the volume is broad based and includes fisheries and aquatic management practitioners and policymakers scientists and educators It is an invitation to a new generation of resource managers to be aware of how approaches and concepts have evolved over time to embrace the challenge of interdisciplinarity and complexity to advance the transformation towards sustainable small scale fisheries

**Race and Transnationalism in the Americas** Benjamin Bryce, David M. K. Sheinin, 2021-05-04 National borders and transnational forces have been central in defining the meaning of race in the Americas Race and Transnationalism in the Americas examines the ways that race and its categorization have functioned as organizing frameworks for cultural political and social inclusion and exclusion in the Americas Because racial categories are invariably generated through reference to the other the national community has been a point of departure for understanding race as a concept Yet this book argues that

transnational forces have fundamentally shaped visions of racial difference and ideas of race and national belonging throughout the Americas from the late nineteenth century to the present Examining immigration exclusion indigenous efforts toward decolonization government efforts to colonize sport drugs music populism and film the authors examine the power and limits of the transnational flow of ideas people and capital Spanning North America Central America South America and the Caribbean the volume seeks to engage in broad debates about race citizenship and national belonging in the Americas
