In My Tribe Dan Blank,2019 In this riveting follow up to the best seller Everything Your Coach Never Told You Because You re a Girl Coach Dan Blank takes aim at the warm and fuzzy double standard facing those who coach

female athletes and reveals the philosophies and methods that sparked a culture of unapologetic competitiveness in a women's college soccer team that won more games than it was ever supposed to win. *In My Tribe* is written specifically for coaches looking to develop a competitive culture within their teams and recounts the author's experience coaching a group of rebellious over-achievers who became notorious for their commitment to extinguishing the spirit of their opponents. *In My Tribe* details Coach Blank's unconventional approach to culture building from selecting captains and indoctrinating rookies to aggression, accountability, and self-governance. This book also includes a Tools of the Tribe section with specific exercises that helped to build a culture where teammates were ferociously loyal, where everyone was accountable, and where winning was the only acceptable outcome. Written in Blank's familiar pull-no-punches style, *In My Tribe* speaks directly to coaches who strive to build a competitive culture that teaches girls to win, win big, and to never ever apologize for it. **Group**

Carpenter, Dave Gillespie, Ric Jorge, 2019-01-02. Three Key Messages: This is important. You can do it. I won't give up on you. Training ordinary people to do extraordinary things requires an understanding of how we learn. *Developing Firefighter Resiliency* starts with the basic psychophysical aspects of learning. The fire service has unwittingly used a failure-based training model for many years. Hands-on training exercises are often based on unachievable objectives. Trainers are often not educated about the psychology of adult learning or the effect of stress during learning. Consequently, participants face learning activities with mastery-level skill requirement to succeed when competency has yet to be established. This amounts to a never-ending diet of tests without actual skill development. Accessing knowledge under extreme circumstances cannot be left to chance because the penalty for failure is severe. This book provides the roadmap for a journey to train, establish relevancy for the lessons, develop competency in the skills, and capitalize on confidence to achieve mastery. We study the
