Church Grew Acts:

Essentials of Evangelism Tom Malone, 2000-08 Planting Growing Churches for the 21st Century Aubrey Malphurs, 2004-10-01 If the church is to thrive in the twenty first century it will have to take on a new form as it ministers to the 120 million unchurched people in the United States Planting Growing Churches for the 21st Century is still virtually the only available text on church planting in North America and beyond In this third edition readers will find material on the importance of healthy biblical change in our churches updated appendixes insight on our postmodern ministry context and strategies for reaching new population demographics such as Generations X and Y Pastors ministry leaders and church planters will find the information and advice found in this book invaluable as they carry out their ministries

Understanding the Principles of Church Growth Professor Isaac O. Ojutalayo, 2019-04-06 The author of this work Isaac Ojutalayo has done his research on the subject of leadership and church growth The contents of this book are the written evidence The eleven chapters embrace some of the most important and necessary things that leaders should learn and practise whether they are ordained ministers or lay workers in the church The principles he has written about can also be applied in circular organisation This book reveals Dr Isaac Ojutalayo s academic achievement and experimental development He has divided each chapter into readable sections that can be easily discussed and studied The book is suitable for individuals and groups who are called by God to lead His people Dr Isaac Ojutalayo is passionate that leaders be men and women of excellence whether the congregation they lead is large or small He stresses communication generosity honesty and continuing education with the highest level of trust all essential elements of church growth He points out repeatedly that the church and the world community are suffering from a crisis of leadership that bold and honest leaders are needed in the church and in the marketplace as well as in the home In my analysis he has called for transformational leaders to rise up and effect change It is very clear that he is saying that many leaders work within situations Transformational leaders change what can be talked about whereas many other leaders talk about pay offs Transformational leaders talk about goals Many leaders bargain whereas transformational leaders appeal to a common vision Dr Isaac Ojutalayo argues that desperately needed Christians and transformational leadership will not emerge until we have a model of a transforming leader I believe that Jesus Christ was and is the most effective leader the world has ever known It is with unreserved joy that I recommend this publication to those who are interested in church leadership Professor Clinton L Ryan ThD Leading Leaders Aubrey Malphurs, 2005-04-01 The key to effective leadership in the vast majority of today s churches lies as much with their governing boards as it does with their pastor But many churches are lead by those who volunteer to chair committees because there is a need yet they have no leadership training to speak of How can well meaning but sometimes ill prepared lay people guide the path of a church body The secret lies in offering effective practical training Leadership expert Aubrey Malphurs provides this in Leading Leaders Filling a gaping hole in leadership literature Malphurs offers workable strategies

A Case Study in Contextualization

Fred W. McRae, 2014-01-30 The content of the gospel never changes however communicating it constantly fluctuates

Conveying the gospel to a homeless hungry woman may include providing a hot bowl of chili while an agnostic co worker might be open after several rounds of golf The message is the same but the method of communicating it is as wide and varied as life itself Finding the correct method is like hitting the sweet spot on a tennis racket or golf club It takes time study and practice but once you find it you have more success The sweet spot in missions is called contextualization and involves much more than learning a new language It means knowing a country's religious political and social conditions Correct theology financial backing and language acquisition are meaningless without contextualization This book tells the story of a German organization struggling to contextualize the gospel in a very hostile environment Its mission was to revive a dying church characterized by centuries old religious pride and pluralism This study details the challenges of faithfully communicating the gospel in a post Christian culture and serves as a study to enable missionaries to recognize and respond to cultural issues affecting the contextualization process

Towards a Theology of Church Growth David Goodhew, 2016-03-03 Concern about church growth and decline is widespread and contentious yet theological reflection on church growth is scarce Reflecting on the Bible dogmatic theology and church history this book situates the numerical growth of the church within wider Christian theology Leading international scholars including Alister McGrath Benedicta Ward and C Kavin Rowe contribute a spectrum of voices from evangelical charismatic liberal and anglo catholic perspectives All contributors unite around the importance of seeking church growth provided this is situated within a nuanced theological framework This book offers a critique of decline theology which has been influential amongst theologians and churches and which assumes church growth is impossible and or unnecessary The contributors provide rich resources from scripture doctrine and tradition to underpin action to promote church growth and to stimulate further theological reflection on the subject The Archbishop of Canterbury provides the Foreword
