A Comprehensive Guide to Child Psychotherapy and Counseling Christiane Brems, Christina H. Rasmussen, 2018-08-08 Christiane Brems in collaboration with new coauthor Christina Rasmussen introduces prospective and practicing clinicians to theories and principles of applied clinical work with children ages three to twelve years The authors take an integrated approach to understanding children and their families using a biopsychosociocultural model for conceptualization and treatment planning Their methods are practical and compassionate as well as contextually grounded and individually tailored Chapters follow the logical development of clinicians mirroring the natural flow of work with children Coverage ranges from the importance of a beginning practitioner's introspection and of ethical and legal issues to a variety of intervention techniques and strategies and finally termination Case studies showcase individualized and mindful treatment for each child with whom a clinician works Outstanding Features of the Fourth Edition Essential attention to how clinicians self awareness can lead to positive therapeutic relationships with children and their families Thorough discussions of the biopsychosociocultural model for conceptualization and treatment planning Emphasis on intensive assessment prior to treatment planning to address the needs of each child and family A compelling practical exploration of mindfulness

intervention with children The authors methodology addresses the profound effects of the larger environment and culture on children By adopting the authors integrated approach clinicians are better able to understand important and complicated aspects of a child s and family s life From there compassionate thoughtful and relevant intervention ensues Measuring the Effects of Racism Robert T. Carter,Alex L. Pieterse,2020-07-21 A large body of research has established a causal relationship between experiences of racial discrimination and adverse effects on mental and physical health In Measuring the Effects of Racism Robert T Carter and Alex L Pieterse offer a manual for mental health professionals on how to understand assess and treat the effects of racism as a psychological injury Carter and Pieterse provide guidance on how to recognize the psychological effects of racism and racial discrimination They propose an approach to understanding racism that connects particular experiences and incidents with a person s individual psychological and emotional response They detail how to evaluate the specific effects of race based encounters that produce psychological distress and possibly impairment or trauma Carter and Pieterse outline therapeutic interventions for use with individuals and groups who have experienced racial trauma and they draw attention to the importance of racial awareness for practitioners The book features a racial trauma assessment toolkit including a race based traumatic stress symptoms scale and interview schedule Useful for both scholars and practitioners including social workers educators and counselors Measuring the Effects of Racism offers a new framework of race based traumatic stress that helps legitimize psychological reactions to experiences of racism Disaster Mental Health Counseling Mark A. Stebnicki,2016-12-07 Focuses on understanding cultural and psychosocial contexts to promote optimal healing for disaster survivors This is the first book for mental health professionals working with survivors of mass trauma to focus on the psychosocial and culture contexts in which these disasters occur It underscores the importance of understanding these environments in order to provide maximally effective mental health interventions for trauma survivors and their communities Global in scope the text addresses the foundations of understanding and responding to the mental health needs of individuals and groups healing from traumas created by a wide range of natural and human made critical events including acts of terrorism armed conflict genocide and mass violence by individual perpetrators Designed for professional training in disaster mental health and meeting CACREP standards the text promotes the knowledge and skills needed to work with the psychosocial aspects of individual and group adaptation and adjustment to mass traumatic experience Reflecting state of the art knowledge the book offers detailed guidelines in assessment and brief interventions related to survivors posttraumatic stress symptoms and complex trauma associated with being at the epicenter of extraordinary stressful and traumatic events In addition this book also covers critical issues of self care for the professional Illustrated with first person accounts of disaster survivors and case scenarios this book emphasizes how counselors and other mental health professionals can foster resilience and wellness in individuals and communities affected by all types of disasters Key Features Considers disaster and mass trauma response from a culturally and globally relevant perspective the

first book of its kind Addresses CACREP's clinical standards and content areas related to disaster mental health response Covers many types of disasters and categories of survivors Includes updated information on PTSD complex trauma and self care Addresses cultivating resiliency in individual and group survivors along with social justice issues Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty Greene, H. Carol, Zugelder, Bryan S., Manner, Jane C., 2020-03-27 Rural poverty encompasses a distinctive deprivation in quality of life related to a lack of educational support and resources as well as unique issues related to geographical cultural community and social isolation While there have been many studies and accommodations made for the impoverished in urban environments those impoverished in rural settings have been largely overlooked and passed over by current policy The Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty is an essential scholarly publication that creates awareness and promotes action for the advocacy of children and families in rural poverty and recommends interdisciplinary approaches to support the cognitive social and emotional needs of children and families in poverty Featuring a wide range of topics such as mental health foster care and public policy this book is ideal for academicians counselors social workers mental health professionals early childhood specialists school psychologists administrators policymakers researchers and students *Diversity, Culture and Counselling, 3rd Ed.* M. Honore France, Maria del Carmen Rodriguez, Geoffrey G. Hett, 2021-09-27 A uniquely Canadian approach to multicultural counselling In a country as diverse as Canada a multicultural counselling approach provides an essential starting point for working with people from different ethnicities sexualities gender identities abilities and religious backgrounds Bringing Canadian perspectives to the field of multicultural counselling this collection provides practical approaches to counselling in Indigenous Asian Black Canadian Hispanic South Asian and LGBTQ2 communities among others along with advice for treating migrant and refugee clients The third edition of Diversity Culture and Counselling addresses crucial issues such as systemic racism immigration policy climate change and discriminatory policies reflecting the many changes that have arisen in Canada since the publication of the second edition Along with an all new chapter on counselling during a national crisis each chapter has been revised to reflect the current state of diversity in Canadian counselling with contributors from a range of backgrounds Ideological and Political Bias in Psychology Craig L. Frisby, Richard E. Redding, William T. O'Donohue, Scott O. Lilienfeld, 2023-09-13 This book examines the traditional assumptions made by academics and professionals alike that have embedded sociopolitical biases that impede practice and undermine efforts to achieve an objective scientific status If allowed to go unchallenged the credibility of psychology as a discipline is compromised This contributed volume thoroughly and comprehensively examines this concern in a conceptually and empirically rigorous manner and offers constructive solutions for minimizing undue political influences within the field of psychology Societies in the 21st century desperately need reliable psychological science but we don't have it This important volume explains one of the main reasons why we are making little progress on any issue that gets

contaminated by the left right culture war because the field of psychology is an enthusiastic member of one of the two teams so it rejects findings and researchers who question its ideological commitments The authors of this engaging volume also show us the way out They diagnose the social dynamics of bias and point to reforms that would give us the psychology that we need to address 21st century problems Jonathan Haidt Thomas Cooley Professor of Ethical Leadership NYU Stern School of Business and author of *The Righteous Mind* The boundaries of free speech censorship moral cultures social justice and ideological biases are among the many incendiary topics discussed in this book If you are looking for a deep dive into real world contemporary controversies *Ideological and Political Bias in Psychology* fits the bill The chapters are thoughtful and thought provoking Most readers will find something to agree with and something to rage at in almost every chapter It just may change how you think about some of these topics Diane F Halpern Professor of Psychology Emerita Claremont McKenna College and Past President American Psychological Association Unless the political left is always correct about everything in which case we wouldn't need to do research we could just ask a leftist the growing political monoculture of social science is a major barrier to our search for the truth This volume shows how ideological bias should be treated as a source of research error up there with classic methodological flaws like non random assignment and non blind measurement Steven Pinker Johnstone Professor of Psychology Harvard University and the author of *Rationality* An important read for academics curious about how their politics fashions beliefs that too often are uncritically taken for granted and for non academics wondering why we can't shake off the politics that so influences scientific work Vernon Smith Nobel Laureate in Economic Sciences and George L Argyros Chair in Finance and Economics Chapman University Advances and deepens empirically rigorous scholarship into biased political influences affecting academic and professional psychology Offers constructive solutions for minimizing undue political influences within psychology and moving the field forward Serves as a resource for psychological academicians researchers practitioners and consultants seeking to restore the principles of accurate science and effective practice to their respective areas of research
