Church Marketing 101 Preparing Your Church For Greater Growth

David A. Christensen

Church Marketing 101 Preparing Your Church For Greater Growth:

Church Marketing 101 Richard L. Reising, 2006-01-01 Over 90 percent of all Christian churches in the United States have fewer than 200 members While they vary in shape size ethnicity and denomination they have one thing in common the desire to grow So why is it that some churches fail to grow for years while other congregations in the same community increase exponentially The problem says church marketing authority Richard Reising is that most churches should not be doing promotion Instead they should focus on the preparation that will make members eager to invite others In ChurchMarketing 101 he demystifies basic marketing principles for the church evaluates them against biblical principles and illustrates how simple changes can remove roadblocks that hinder members from reaching out Reising s simple yet insightful approach will be invaluable to pastors and ministry leaders from churches of all denominations and styles Perception-based Marketing of Parishes using the example of Catholic Academics and Students Thomas Peters, 2019-03-28 The Roman Catholic Church in Germany is faced with an increasingly pluralistic and secularized society that further precipitates the decline in membership that has been ongoing already since the 1970s through instances of aging population and church leavings and has been causing at the level of locally and regionally operating parishes and their establishments a growing shortage of personnel and other resources Here a marketing communication that is based on target group specific perception can be useful to remedy the situation in that the religious and social offers as well as the personal and media appearance of parishes are adjusted to population groups that credit to their socioeconomic potentials are able to substantially contribute to building social capital in church contexts Particularly Catholic Academics with high affinity to the Church make their comprehensive individual professional and financial resources available more frequently and more consistently for voluntary engagements than the majority of the German population A group that positively engages to great extent is that of those students and Academics who are organized in Catholic student fraternities or associations and their local institutions A targeted involvement of this small but high resourced population group in local church activities can be a substantial and existential aid for the Catholic Church in Germany and sustain its further development This is explored and discussed on the example of the largest academic association in Europe Cartel Confederation of the Catholic German Student Associations CV in German Cartellverband der katholischen deutschen Studentenverbindungen and attached specific practical recommendations for parish marketing The Germany based research results can be applied to other European countries such as Austria and Switzerland Furthermore the discussion of results offer a broad range of new perspectives and ideas for church marketing in those countries which have a living culture of denominational student associations **Church in the Land of Desire** Edward Rommen, 2021-03-18 According to William Leach religious communities that have come to North America have not been able to withstand the damaging influence of its consumer oriented society which has subverted ecclesial customs values and practices Rather than resisting most of these groups have sought to integrate Christianity into the new culture By doing

so they run the risk of marginalizing the church and fundamentally altering its teachings and practice Of course the real danger does not reside in the occasional use of isolated elements of our culture the unreflected application of any technology available the replacement of traditional ecclesial practices with the techniques of the business world or even the substitution of ecclesial foundations of authority Rather danger lies in a set of fundamental principles that together define a basic orientation which is naturally and almost mindlessly attracted to these secular devices sees no harm in them justifies and amplifies their effects and effectively supplants the mind of Christ which is supposed to govern the church This study analyzes and documents the effects of that mindset and calls us back to the biblical and traditional alternatives that alone can bring healing and recovery to the church

Branded Faith Rajkumar Dixit,2010-06-07 Christianity may be the greatest story ever told but in Western culture it is losing ground against the powerful forces of secularization In examining the root causes of this cultural shift does the church have anything to learn from secular society and the business sector For decades the church has resisted the idea of using business methodologies in the religious sphere Yet a closer look reveals that most church hierarchies have borrowed much of their organizational structure from the business sector But the church is not alone in its borrowing Today the lines between the church and the business sector are blurred as both entities influence each other interchangeably In Branded Faith Rajkumar Dixit enters an engaging and intellectually stimulating analysis of what the church can learn from the business practices of marketing branding and contextualization Using examples drawn from widely recognized companies such as Nike Starbucks Coca Cola and Subway Dixit systematically builds a case for the power of a story and emphasizes the importance of seeking culturally relevant ways to spread it Those who care deeply about sharing Christianity powerfully and effectively will find in Branded Faith a thoughtful presentation of ideas on how to maintain the integrity of the gospel while exploring fresh methods of communicating the good news to a postmodern society

The Persuasive Preacher David A. Christensen,2020-07-16 How can we preach persuasively without huckstering manipulating or coercing people Sadly we are seeing the fall of many pastors not for reasons of sexual immorality but the pursuit of pride and power The skillful use of marketing methods creates celebrity pastors who become significant influencers in the evangelical church The lure of success is seductive turning pastors into hucksters and Christians into consumers We need to heed the warnings of the New Testament about the pride of rhetoric and the pursuit of power David Christensen carefully analyzes the biblical warnings of Paul about the temptations of rhetorical sophistry in the first century church and applies them to pastoral ministry today God calls preachers to be ethical and effective persuaders David develops an ethical grid for pastoral persuasion using principles drawn from the Bible and social science along with practical illustrations from his years of ministry He calls preachers to be ethical and effective persuaders by emphasizing the centrality of the word of God while depending on the power of the Spirit of God

The Subversive Evangelical Peter J. Schuurman,2019-06-30 Evangelicals have been scandalized by their association with Donald Trump their megachurches

summarily dismissed as religious Walmarts In The Subversive Evangelical Peter Schuurman shows how a growing group of reflexive evangelicals use irony to critique their own tradition and distinguish themselves from the stereotype of right wing evangelicalism Entering the Meeting House an Ontario based Anabaptist megachurch as a participant observer Schuurman discovers that the marketing is clever and the venue a rented movie theatre is attractive to the more than five thousand weekly attendees But the heart of the church is its charismatic leader Bruxy Cavey whose anti religious teaching and ironic tattoos offer a fresh image for evangelicals This charisma Schuurman argues is not just the power of one individual it is a dramatic production in which Cavey his staff and attendees cooperate cultivating an identity as an irreligious megachurch and providing followers with a more culturally acceptable way to practise their faith in a secular age Going behind the scenes to small group meetings church dance parties and the homes of attendees to investigate what motivates these reflexive evangelicals Schuurman reveals a playful and provocative counterculture that distances itself from prevailing stereotypes while still embracing a conservative Christian faith

Permission Granted Stan Saunders,2011-05 For most people church is a spectator sport This is one reason why church is so boring and why so many have dropped out A church is a living active organism where every member participates in a highly productive manner *Permission Granted* encourages every Christ follower to discover and participate in ministries they are designed and gifted to perform Churches need to make the adjustments necessary to liberate and motivate their members to become active participants in ministry There is profound joy in observing people who find needs and fill them and who find hurts and heal them The happiest people are those who are helping others Happy church members build healthy and growing churches Jesus said Go *Permission Granted*

Language and the Market Society Gerlinde Mautner,2010-03-28 Language plays a central role in creating and sustaining the market society a society in which market exchange is no longer simply a process but an all encompassing social principle The book examines the phenomena from a linguistic and critical perspective drawing on critical discourse analysis and sociological treatises of market society

Liberating Hope!: Michael Piazza,Cameron Trimble,2011-06-14 Accurate and strategic evidence that the decline of the mainline progressive church can be slowed and even reversed despite the challenges it is facing

Displaying Competence in Organizations K. Pelsmaekers,C. Rollo,T. Van Hout,P. Heynderickx,Tom Van Hout,2011-05-26 Competence encompasses or overlaps with notions of efficiency success accountability excellence and self justification This collection explores ways in which individuals teams or groups in organizations discursively present themselves as competent to perform tasks or functions possibly at a superior level
