including John Le Carr Len Deighton and Ian Fleming and many of which they would never have seen *The Haunting of Twenty-First-Century America* William J. Birnes, Joel Martin, 2013-12-17 In this companion volume to *The Haunting of America* and *The Haunting of Twentieth Century America* national bestselling authors William J Birnes and Joel Martin explore today's intellectual and spiritual awakening one that is challenging traditional belief systems Birnes and Martin show that though many governments deny the importance of a spiritual component to national policy even the most conservative governments have based social and financial policy decisions on a profound belief in the existence of the paranormal ghosts and spirits From using psychic spying programs to gather intelligence on enemy nations to investigating the use of mind control to impede the abilities of hostile troops the U S government has continuously developed paranormal weapons and tactics alongside their more mundane counterparts U S Presidents from Franklin Pierce through Ronald Reagan regularly relied on the paranormal using trance mediums channelers and astrologists to help plan agendas and travel schedules *The Haunting of Twenty First Century America* is unlike any American history you will ever read it posits that not only is the paranormal more normal than most people think but that it is driving current events to a new Fourth Culture of the twenty first century At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

American Torture Michael Otterman, 2007-03-20 George W Bush calls them an alternative set of procedures vital tools needed to protect the American people and our allies *American Torture* reveals how torture became standard practice in today's War on Terror Tools including being forced standing for up to forty hours sleep deprivation for weeks on end and dousing naked prisoners with ice are undeniably torture and they are used by the United States of America Long before Abu Ghraib became a household name the US military and CIA used torture with impunity at home and abroad Billions of dollars were spent during the Cold War studying refining then teaching these techniques to American interrogators and to foreign officers charged with keeping Communism at bay This book writes the history of these methods and their invention and adoption by US military personnel *The Official CIA Manual of Trickery and Deception* Harold Keith Melton, 2009 The manuals reprinted in this work represent the only known complete copy of Mulholland's instructions for CIA officers on the magician's art of deception and secret communications written to counter Soviet mind control and interrogation techniques

Safe Houses I Have Known Steve Healey, 2019-09-10 As a child during the height of the Cold War Steve Healey learns that his father is a spy for the CIA Beneath the banality of everyday life the suburbs of Washington DC school and play his parents deteriorating marriage assumed names parallel lives and myriad Cold War menaces linger Drawing from CIA training manuals and pop culture references alike Healey's poetry is both intimate and claustrophobic In these poems the natural anxiety of childhood is compounded by the weight of both national and family secrets and Healey draws deep parallels between the shaky foundations of truth in his past and the paranoia and obfuscation that envelops our nation's present The Violent American Century John W. Dower, 2017-03-20 Tells how America since the end of World War II has

turned away from its ideals and goodness to become a match setting the world on fire Seymour Hersh investigative journalist and national security correspondent World War II marked the apogee of industrialized total war Great powers savaged one another Hostilities engulfed the globe Mobilization extended to virtually every sector of every nation Air war including the terror bombing of civilians emerged as a central strategy of the victorious Anglo American powers The devastation was catastrophic almost everywhere with the notable exception of the United States which exited the strife unmatched in power and influence The death toll of fighting forces plus civilians worldwide was staggering The Violent American Century addresses the US led transformations in war conduct and strategizing that followed 1945 beginning with brutal localized hostilities proxy wars and the nuclear terror of the Cold War and ending with the asymmetrical conflicts of the present day The military playbook now meshes brute force with a focus on non state terrorism counterinsurgency clandestine operations a vast web of overseas American military bases and most touted of all a revolutionary new era of computerized precision warfare In contrast to World War II postwar death and destruction has been comparatively small By any other measure it has been appalling and shows no sign of abating The author recipient of a Pulitzer Prize and a National Book Award draws heavily on hard data and internal US planning and pronouncements in this concise analysis of war and terror in our time In doing so he places US policy and practice firmly within the broader context of global mayhem havoc and slaughter since World War II always with bottom line attentiveness to the human costs of this legacy of unceasing violence Dower delivers a convincing blow to publisher Henry Luce s benign American Century thesis Publishers Weekly

Our Own Backyard William M. LeoGrande, 2009-11-18 In this remarkable and engaging book William LeoGrande offers the first comprehensive history of U S foreign policy toward Central America in the waning years of the Cold War From the overthrow of the Somoza dynasty in Nicaragua and the outbreak of El Salvador s civil war in the late 1970s to the final regional peace settlements negotiated a decade later he chronicles the dramatic struggles in Washington and Central America that shaped the region s destiny For good or ill LeoGrande argues Central America s fate hinged on decisions that were subject to intense struggles among and within Congress the CIA the Pentagon the State Department and the White House decisions over which Central Americans themselves had little influence Like the domestic turmoil unleashed by Vietnam he says the struggle over Central America was so divisive that it damaged the fabric of democratic politics at home It inflamed the tug of war between Congress and the executive branch over control of foreign policy and ultimately led to the Iran contra affair the nation s most serious political crisis since Watergate

The Oxford Handbook of Sound and Imagination Mark Grimshaw, Mark Grimshaw-Aagaard, Mads Hansen, Martin Knakkegaard, 2019 In this two volume Handbook contributors address the tendency to discuss musical imagination through terms like compositional creativity or performance technique correcting the current bias towards visual imagination to instead highlight the many forms of sonic and musical imagination
