The Oxford Handbook of Evidence-based Crime and Justice Policy Brandon Welsh, Steven N. Zane, Daniel P. Mears, 2024 An evidence based approach to crime and justice policy can go a long way toward ensuring that the best available research is considered in decisions that bear on the public good However the term evidence based is characterized by a great deal of rhetoric Indeed there remains a marked disjuncture between calls for evidence based policy and an understanding of what it means for policy to be evidence based The calls for evidence based policy nonetheless provide a powerful foundation for propelling a movement toward bringing about rational cost effective and humane policies for the betterment of society This handbook showcases the state of research on evidence based crime and justice policy and the challenges that impede its creation and use The volume has three core objectives to promote new and productive ways to think about evidence based policy to demonstrate how research can contribute to and guide evidence based policy in juvenile justice criminal justice and alternatives to system responses and to identify strategies that can increase reliance on evidence based policy To meet these objectives each chapter is guided by several central questions What do we know about evidence based policy and practice in crime and justice How can we improve knowledge of evidence based policy and practice How can we promote more use of

evidence based policy and practice Taken as a whole the volume emphasizes the critical need for policies that are grounded in high quality research that address critical research gaps and that fully acknowledge the limitations of what extant research can do to inform policy decisions *The Encyclopedia of Theoretical Criminology*, 2014-04-07 The Encyclopedia of Theoretical Criminology in zwei Bänden ist zweifelsohne das aktuellste Referenzwerk der theoretischen Kriminologie Fachliche Beiträge internationaler Experten machen den Leser mit wegweisenden Theorien Konzepten und Schlüsselfiguren vertraut Das Nachschlagewerk präsentiert klassische und zeitgenössische Themen zu den wichtigen Straftatbeständen Zusammenhängen fachspezifische Soziologie Biologie und Psychologie und fachübergreifende Erklärungen zu Kriminalität Kriminalitätsrate und Fragestellungen aus der Rechtssoziologie **Towards a Rational Legislative Evaluation in Criminal Law** Adán Nieto Martín, Marta Muñoz de Morales Romero, 2016-08-27 This book launches a debate on the need to evaluate criminal policies and what is more complex and ambitious to develop an evaluation method The contributions address topics such as the general methodology for evaluating public policy preparing criminal statistics and analyzing costs cost effectiveness and cost benefits Additionally the work explores the state of affairs in various countries including Spain Sweden USA Germany and in the EU It also examines issues such as the relationship between legislative evaluation and criminal principles and the constitutional courts control over criminal acts
