Colonial Saints Discovering The Holy In The Americas 1500 1800:

Colonial Saints Allan Greer, Jodi Bilinkoff, 2015-12-22 From the cult of Saint Anne to the devotees of the Virgin of Guadalupe from Saint Anthony who competed with Christ for popularity in Brazil to Jesuits who mixed freely with shamans that talked with the gods this exciting new anthology examines the conversion of the colonized The essays examine how New World spirits transformed into Old World saints for example the spirit of love transfigured into the Virgin Mary as well as the implications of the canonization of the first American saint *Colonial Saints* illustrates the complex and intimate connections among confessional life writing canonization and the practices of the Inquisition There was a dynamic exchange involving local agendas the courts in Spain and France and of course Rome This bold collection clearly shows the interplay between slavery and spirituality conversion and control and the links between the sacred and the political *Colonial Saints* Allan Greer, Jodi Bilinkoff, 2003

Black Saint of the Americas Celia Cussen, 2014-10-13 In May 1962 as the struggle for civil rights heated up in the United States and leaders of the Catholic Church prepared to meet for Vatican Council II Pope John XXIII named the first black saint of the Americas the Peruvian Martin de Porres 1579 1639 and designated him the patron of racial justice The son of a Spanish father and a former slave woman from Panam Martin served a lifetime as the barber and nurse at the great Dominican monastery in Lima This book draws on visual representations of Martin and the testimony of his contemporaries to produce the first biography of this pious and industrious black man from the cosmopolitan capital of the Viceroyalty of Peru The book vividly chronicles the evolving interpretations of his legend and his miracles and traces the centuries long campaign to formally proclaim Martin de Porres a hero of universal Catholicism

Gender Differences and the Making of Liturgical History Teresa Berger, 2020-03-26 Mapping uncharted territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including intersexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life *Protestant Empires* Ulinka Rublack, 2020-09-10 Through its wide geographical and chronological scope *Protestant Empires* advances a novel perspective on the nature and impact of the Protestant Reformations

Property and Dispossession Allan Greer, 2018-01-11 Offers a new reading of the history of the colonization of North America and the dispossession of its indigenous peoples

Related Lives Jodi Bilinkoff, 2018-07-05 In early modern Catholic Europe and its colonies priests frequently developed close

relationships with pious women serving as their spiritual directors during their lives and their biographers after their deaths In this richly illustrated book Jodi Bilinkoff explores the ways in which clerics related to those female penitents whom they determined were spiritually gifted and how they conveyed the live stories of these women to readers The resulting popular literatures of hagiography and spiritual autobiography produced hundreds of texts designed to establish models of behavior for the Catholic faithful in the period between the advent of printing and the beginning of the modern age Bilinkoff finds that confessional relations and the texts that document them reveal much about gender and social values She uses life narratives primarily from Spain but also from France Italy Portugal Spanish America and French Canada to examine the ways in which clerics presented female penitents as exemplary and how they constructed their own identities around their interactions with exceptional women These multilayered texts she suggests offer compelling accounts of individuals caught up in the pursuit of holiness and provide a key to understanding the resilience of Catholic culture in an age of religious change and conflict
