Asian Case Studies on Translating Christianity Heejun Yang, 2024-03-14 *Asian Case Studies on Translating Christianity* brings historical expressions of Asian Christianity into contemporary theological conversation The book offers case studies of Jingjiao Christianity in Tang China the Jesuit mission in Ming China indigenous theology in colonial Korea and contemporary Asian American theology The case studies especially examine how the names and understandings of the Trinity have been changed in the processes of borrowing erasing and elevating the meanings of Eastern local concepts to translate the message of Christianity Not only are these diverse expressions of Christianity unique and valuable in and of themselves but they testify that diverse understandings are a God given phenomenon Heejun Yang draws on contemporary theological hermeneutics to argue that it is the self communicative nature of God that helps articulate the diverse understandings of God in these cases Yang posits the Triune God as both the starting and ending points of the Christian hermeneutic process and claims that this

A Theology of International Development Thia Cooper, 2020-02-05 Religion and development have been intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to

consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students **Salvation for the**
