Combating Inequality The Global North And South:

Combating Inequality Alexander Gallas,Hansjörg Herr,Frank Hoffer,Christoph Scherrer,2015-12-22 Economic inequality has recently gained considerable academic attention However two important aspects of inequality have not been discussed systematically its multidimensional nature and the question of what can be done to reverse it This book offers insights from scholars representing the Global Labour University which operates in Brazil Germany India South Africa and the US They analyse the various drivers of inequality assess policy responses and discuss counterstrategies The main findings of this book are that rising levels of inequality cannot be addressed only with the standard policies responses namely education redistribution and green growth In addition the way markets currently function needs to be corrected The chapters in this volume focus on specific fields of contemporary capitalism where important drivers of inequality are located for example the labour market the financial system the tax system multi national corporations and gender relations Other chapters discuss in detail where political opportunities for change lie They critically assess existing countermeasures the idea of a green economy and its implications for inequality and existing campaigns by trade unions and new social movements against inequality In line with the global nature of the problem this book contains case studies on countries both from the north and south with considerable economic and political weight This book provides academics political practitioners and civil society activists with a range of ideas on how to drive back inequality It will be of interest to those who study political economy development economy and labour economics

Combating Inequality Alexander Gallas,Hansjörg Herr,Frank Hoffer,Christoph Scherrer,2015-12-22 Economic inequality has recently gained considerable academic attention However two important aspects of inequality have not been discussed systematically its multidimensional nature and the question of what can be done to reverse it This book offers insights from scholars representing the Global Labour University which operates in Brazil Germany India South Africa and the US They analyse the various drivers of inequality assess policy responses and discuss counterstrategies The main findings of this book are that rising levels of inequality cannot be addressed only with the standard policies responses namely education redistribution and green growth In addition the way markets currently function needs to be corrected The chapters in this volume focus on specific fields of contemporary capitalism where important drivers of inequality are located for example the labour market the financial system the tax system multi national corporations and gender relations Other chapters discuss in detail where political opportunities for change lie They critically assess existing countermeasures the idea of a green economy and its implications for inequality and existing campaigns by trade unions and new social movements against inequality In line with the global nature of the problem this book contains case studies on countries both from the north and south with considerable economic and political weight This book provides academics political practitioners and civil society activists with a range of ideas on how to drive back inequality It will be of interest to those who study political economy development economy and labour economics

Inequality Studies from the Global South David Francis, Imraan Valodia, Edward Webster, 2020-05-04 This book offers an innovative interdisciplinary approach to thinking about inequality and to understanding how inequality is produced and reproduced in the global South Without the safety net of the various Northern welfare states inequality in the global South is not merely a socio economic problem but an existential threat to the social contract that underpins the democratic state and society itself Only a response that is firmly grounded in the context of the global South can hope to address this problem This collection brings together scholars from across the globe with a particular focus on the global South to address broad thematic areas such as the conceptual and methodological challenges of measuring inequality the political economy of inequality in the global South inequality in work households and the labour market and inequalities in land spaces and cities The book concludes by suggesting alternatives for addressing inequality in the global South and around the world The pioneering ideas and theories put forward by this volume make it essential reading for students and researchers of global inequality across the fields of sociology economics law politics global studies and development studies

Inequality in Zambia Caesar Cheelo, Marja Hinfelaar, Manenga Ndulo, 2022-01-31 Coming together from across several disciplines the contributors to this book reflect on the considerable problem of inequality in Zambia comparing it with other countries both in the region and more broadly The World Bank consistently ranks Zambia among the countries with the highest levels of poverty and inequality globally but the problem is not widely studied and the studies that do exist tend to focus solely on economic measures of inequality This book uses a multidimensional analysis of inequalities highlighting the ways in which certain social groups and geographical locations are more likely to suffer multiple inequalities It investigates key issues around poverty healthcare income law disability and power inequalities Particularly showcasing the work of local researchers this book will be of interest to researchers of African studies development economics and politics

Redefining the Role of Language in a Globalized World Wang, Ai-Ling, 2021-01-22 Language while seemingly static is dynamic and ever changing necessitating adaptability in various fields of language studies It is especially true in a globalized world and an information age In the field of language and its applications it is essential to reconsider and redefine existing issues and envision how the changes may have impacts on human beings and on the entire globe *Redefining the Role of Language in a Globalized World* is an essential scholarly publication that explores the role language will play in a globalized world and how language changes over time through its interdependent relationship with technology Featuring a wide range of topics such as bilingualism native speaker prejudice and social inequality this book is essential for educators linguists researchers curriculum designers academicians policymakers librarians and students

Principles and Pluralist Approaches in Teaching Economics Samuel Decker, Wolfram Elsner, Svenja Flechtner, 2019-06-28 This volume is a state of the art compilation of diverse and innovative perspectives principles and a number of practiced approaches of fields courses and methods of pluralist economics teaching It fosters constructive controversy aiming to incite authors and commentators to engage in fruitful

debate The complex economic problems of the 21st century require a pluralist real world oriented and innovative discipline of economics capable of addressing and teaching those complex issues to students from diverse perspectives This volume addresses a number of key questions Which models could be taught outside the equilibrium and optimality paradigm Which methods could help to improve our understanding of the complex globalized economy How can qualitative and quantitative methods be combined in a fruitful way to analyze complex economic problems How can the academic isolation of mainstream economics that has developed over many decades be overcome despite its attempted transdisciplinary imperialism What role should knowledge from other disciplines play in teaching economics and what is the relevance of transdisciplinarity Through examining these issues the editors and authors have created a pluralist but cohesive book on teaching economics in the contemporary classroom drawing from ideas and examples from around the world Principles and Pluralist Approaches in Teaching Economics is a unique collection of diverse perspectives on the methodology and applications of pluralist economics teaching It will be a great resource for those teaching economics at various levels as well as researchers and intermediate and advanced students searching for pluralism in economics

Research Anthology on Applied Linguistics and Language Practices Management Association, Information Resources, 2022-04-01 Whether through speech writing or other methods language and communication has been an essential tool for human cooperation and development Across the world language varies drastically based on culture and disposition Even in areas in which the language is standardized it is common to have many varieties of dialects It is essential to understand applied linguistics and language practices to create equitable spaces for all dialects and languages The Research Anthology on Applied Linguistics and Language Practices discusses in depth the current global research on linguistics from the development of language to the practices in language acquisition It further discusses the social factors behind language and dialect as well as cultural identity found behind unique traits in language and dialect Covering topics such as linguistic equity phonology and sociolinguistics this major reference work is an indispensable resource for linguists pre service teachers libraries students and educators of higher education educational administration ESL organizations government officials researchers and academicians

Exiting the Factory (Volume 1) Alexander Gallas, 2024-07-01 In this important book Gallas asks what strikes in non industrial sectors mean for class formation a critical question which has largely been unaddressed by the current literature on global labour unrest A mapping of strikes around the world and case studies from Germany Britain and Spain cast new light on class relations struggles around waged and unwaged work and labour movements in contemporary capitalism to bring class theory back to labour studies This is a valuable resource for academics and students of employment relations sociology and politics

The Global Rise of Social Cash Transfers Lutz Leisering, 2019 This volume analyses the phenomenon of social cash transfers in the global South providing a definitive and comprehensive overview of current practice

The Social Movements Reader Jeff Goodwin, James M. Jasper, 2014-10-13 Providing a unique blend of cases concepts and essential readings The Social

Movements Reader Third Edition delivers key classic and contemporary articles and book selections from around the world Includes the latest research on contemporary movements in the US and abroad including the Arab spring Occupy and the global justice movement Provides original texts many of them classics in the field which have been edited for the non technical reader Combines the strengths of a reader and a textbook with selected readings and extensive editorial material Sidebars offer concise definitions of key terms as well as biographies of famous activists and chronologies of several key movements Requires no prior knowledge about social movements or theories of social movements
