China's State Enterprise Reform John Hassard, Jackie Sheehan, Meixiang Zhou, Jane Terpstra-Tong, Jonathan Morris, 2007-06-11 Based on extensive original research, this book provides a comprehensive overview of the current status of state enterprise reform in China. Chinese State Enterprise Reform considers the relationship between public ownership and public enterprises and the historical evolution of China's economic reform programme since 1978, including assessments of the Contrast Responsibility System which operated from the early 1980s to the early 1990s and the Group Company Experiments which began in the 1990s. It discusses the relations between workers, managers, and the state in post-Dengist China, the implications of the reform programme for human resources management in state enterprises, the nature of labour representation and organization under state capitalism, and the problems of surplus labour and reemployment.

The Logic of Economic Reform in China Xiaojing Zhang, Xin Chang, 2015-11-19 This book provides a historical overview of Chinese economic reform over the past 30 years. From the genesis of the reform to the gradual improvement of the market system and then to the re-start of the critical stage of the reform, this book includes not only research on the reform process but also detailed descriptions of the key areas of reform since the Third Plenary Session of the 18th CPC Central Committee. On this basis, the author develops six logics for Chinese economic reform. Firstly, reform is cyclical, moving between rapid advances and deadlock; this calls upon us to re-examine the common view of reform. Secondly, reform is systematic; it cannot succeed without supporting reforms in other fields. Thirdly, the relationship between reform, development, and stability should be properly handled. This trinity is quite different from the perspective of western mainstream theory, which puts too much emphasis on efficiency. Fourthly, the success of Chinese reform was not achieved by chance. The reform practice is based on the theoretical logic and also goes beyond the debate between progressive and radical modes. Fifthly, the Top-level Design should be combined with crossing the river by moving from stone to stone, i.e. the theoretical basis of reform should be combined with reform practice. Sixthly, and lastly, the ongoing reform in China must be understood in the contexts of global competition and reform competition.
