**Collecting Qualitative Data** Greg Guest, Emily E. Namey, Marilyn L. Mitchell, 2012-06-29 *Collecting Qualitative Data A Field Manual for Applied Research* provides a very practical step by step guide to collecting and managing qualitative data. The data collection chapters focus on the three most often used forms of qualitative data collection: participant observation in depth interviews and focus groups. The book also contains chapters on other practical aspects of qualitative field research often neglected in textbooks including sampling, data management, research ethics and supplementary data collection activities. Designed as an instructional field manual, this textbook includes many checklists and tips for how to use each technique while doing research. It also includes numerous real life examples and cases making it easy for readers to see the broader picture.

Cultural Interactions of English-Medium Instruction at Vietnamese Universities Thi Quynh Huong Luu, Helena Hing Wa Sit, Shen Chen, 2022-12-16

This book presents a case study of English Medium Instruction (EMI) implemented by universities in Vietnam making valuable theoretical, empirical, and methodological contributions to the research in EMI which is currently a popular theme in the field of Higher Education. The importance of internationalization of higher education has been widely recognized by many countries all over the world. The spread of English as an international language has resulted in its crucial role in teaching and learning any disciplines. Globally, higher education in many non-English speaking countries has witnessed rapid expansion of EMI which was initiated in Europe then to Asia and other continents which are featured with Cultural Circles spread in the world. Although there are many publications with the same theme available today, this monograph is unique because it is the first time to examine EMI classroom interaction from the cultural perspective specifically rather than from linguistic or pedagogical perspectives. It is a pioneering attempt to discuss in depth about cultural issues relating to EMI, namely: 1) the social cultural context of EMI classes in higher education; 2) the cultural backgrounds of EMI teachers and learners; and 3) culture interactions between teachers and learners in EMI classrooms. In addition, both quantitative and qualitative methods are employed to collect data from teachers and learners. Finally, a context-based model of EMI is proposed based on findings of this research. As a country within the Confucius Heritage Cultural Circle, Vietnam has been selected for this study because few studies to date are carried out in how EMI is culturally integrated to teaching and learning in the Vietnamese universities. This book is a joint effort by international academics prepared for established scholars, researchers, educators, and research higher degree students who are interested in higher education, second and foreign language education, and EMI teacher training.
