Collectors Guide To The Beryl Group Schiffer Earth Science Monographs:

Collector's Guide to the Beryl Group Robert J. Lauf, 2011 Beryl in its many color varieties is a favorite of both mineral collectors and gemologists Superb examples are found at many locales worldwide mainly in pegmatites and schists Other members of the group are prized by species collectors and micromount enthusiasts This book explains how beryl is formed and the unique conditions that create fine aquamarines and emeralds After a brief introduction the general treatment begins with an explanation of the chemistry and taxonomy of the group A section on their formation and geochemistry explains the kinds of environments where beryls are formed Detailed entries for each mineral provide locality information and full color photos so that collectors can see what good specimens look like and which minerals one might expect to find in association with them An extensive bibliography is provided for further study Over 100 photographs of these beautiful minerals show each species in its geological context

Collector's Guide to the Tourmaline Group R. J. Lauf, 2011 Among rock forming minerals the colorful tourmaline group is a favorite of both mineral collectors and gemologists Superb examples are found at many locales worldwide and in diverse geological settings from pegmatites to schists Over 120 clear crisp photos show each mineral in its geological context This book will help mineral and gem collectors understand tourmaline mineralogy and see how changes in nomenclature reflect our evolving understanding of the group The text explains the chemistry and taxonomy of the group the environment in which tourmalines form provides a detailed entry for each mineral including locality information and full color photos wherever possible so that collectors can see what good specimens look like and which minerals one might expect to find in association with them An extensive bibliography is provided for readers who wish to learn more Every serious mineralogist gemologist and rock hound will need this book
