De Prentschat Van Michiel Hinloopen

Feike Dietz, Adam Morton, Lien Roggen

De Prentschat Van Michiel Hinloopen:

Dutch Paintings in the Metropolitan Museum of Art Walter A. Liedtke, Metropolitan Museum of Art (New York, N.Y.), 2007 Presents a catalog that surveys the Dutch paintings found in the Metropolitan Museum of Art

Illustrated Religious Texts in the North of Europe, 1500-1800 Prof Dr Els Stronks, Dr Adam Morton, Asst Prof Feike Dietz, Professor Marc Van Vaecck, Ms Lien Roggen, 2014-07-28 *Illustrated Religious Texts in the North of Europe 1500 1800* provides a new perspective on the role of visual imagery in the Reformation period by focusing on international forms of collaboration and makes a significant contribution to ongoing debates concerning the history of the book by focusing on the ideological as well as practical side of international contacts

The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently

Illustrated Religious Texts in the North of Europe, 1500-1800 Feike Dietz, Adam Morton, Lien Roggen, 2016-12-05 In recent years many historians have argued that the Reformation did not as previously thought hamper the development of Northern European visual culture but rather gave new impetus to the production diffusion and reception of visual materials in both Catholic and Protestant milieus This book investigates the crosscurrents of exchange in the realm of illustrated religious literature within and beyond confessional and national borders and against the background of recent insights into the importance of on the one hand material as well as on the other hand sensual and emotional aspects of early modern culture Each chapter in the volume helps illuminate early modern religious culture from the perspective of the production of illustrated religious texts to see the book as object a point at which various vectors of early modern society met Case studies together with theoretical contributions shed light on the ways in which illustrated religious books functioned in evolving societies by analysing the use re use and sharing of illustrated religious texts in England France the Low Countries the German States and Switzerland Interpretations based on points of material interaction show us how the most basic binaries of the early modern world Catholic and Protestant word and image public and private were disrupted and negotiated in the realm of the illustrated religious book Through this approach the volume expands the historical appreciation of the place of imagery in post Reformation Europe

Art, Science, and Witchcraft in Early Modern Holland Claudia Swan, 2005-06-08 Publisher Description

Slavery and the Invention of Dutch Art Caroline Fowler, 2024-12-06 In *Slavery and the Invention of Dutch Art*

Caroline Fowler examines the fundamental role of the transatlantic slave trade in the production and evolution of seventeenth century Dutch art Whereas the sixteenth century image debates in Europe engaged with crises around the representation of divinity Fowler argues that the rise of the transatlantic slave trade created a visual field of uncertainty around picturing the transformation of life into property Fowler demonstrates how the emergence of landscape maritime and botanical painting were deeply intertwined with slavery s economic expansion Moreover she considers how the development of one of the first art markets was inextricable from the trade in human lives as chattel property Reading seventeenth century legal theory natural history inventories and political pamphlets alongside contemporary poetry theory and philosophy from Black feminism and the African diaspora Fowler demonstrates that ideas about property personhood and citizenship were central to the oeuvres of artists such as Rembrandt van Rijn Hercules Segers Frans Post Johannes Vermeer and Maria Sibylla Merian and therefore inescapably within slavery s grasp Rembrandt — Studies in his Varied Approaches to Italian Art

Amy Golahny,2020-07-20 Rembrandt Studies in his Varied Approaches to Italian Art explores his engagement with imagery by Italian masters His references fall into three categories pragmatic adaptations critical commentary and conceptual rivalry These are not mutually exclusive but provide a strategy for discussion This study also discusses Dutch artists attitudes toward traveling south surveys contemporary literature praising and or criticizing Rembrandt and examines his art collection and how he used it It includes an examination of the vocabulary used by Italians to describe Rembrandt s art with a focus on the patron Don Antonio Ruffo and closes by considering the reception of his works by Italian artists **In**

His Milieu Amy Golahny,Mia Mochizuki,Lisa Vergara,2025-10-01 Collected in memory of the Vermeer scholar and Yale economist J Michael Montias these essays take into account the latest trends in the field and provide new data on a wide range of topics in Netherlandish art Themes include the reception of paintings and architecture art collecting as interpreted through inventories and other documents that reveal modes of display relationships between patrons and painters recently found or attributed works of art artists as teachers and the art market Taken together these focused studies offer fresh perspectives on the historical appreciation and evaluation of art Drawing upon J M Montias contribution to art history these 32 essays present new analyses attributions and documents on Netherlandish art and material culture including the work of Vermeer Rubens Rembrandt van Eyck and others by internationally known scholars of art history and the economics of art

Dawn of the Golden Age Wouter T. Kloek,Rijksmuseum (Amsterdam, Pays-Bas).,Rijksmuseum (Netherlands),J. Bruyn,Hessel Miedema,Christian Schuckman,1993-01-01 Designed as a catalogue for an exhibition at the Rijksmuseum in 1994 this offers a survey of the paintings drawings prints sculpture and applied art produced 1580 1620 The book contains five essays followed by a catalogue which reproduces work from the era along with data on the artists *A Corpus of Rembrandt Paintings V* Ernst van de Wetering,2013-12-12 This volume is the fifth volume of A Corpus of Rembrandt Paintings a project devoted to all Rembrandt s paintings This is the work of The Rembrandt Research Project consisting of a

group of scholars led since 1993 by Professor Ernst van de Wetering The project began in 1968 with the aim of separating Rembrandt's own paintings from the vast number of Rembrandtesque paintings made by his many apprentices and followers Having opted for a chronological approach to the cataloguing of Rembrandt's paintings from 1625 till 1642 in the first three volumes it was decided in 1993 to adopt a thematic approach for further volumes This was largely to facilitate the recognition of different hands The new approach yielded much more information not only about Rembrandt's working methods but also about the function and meaning of his works This expanded field of view meant that etchings and drawings with similar themes also needed to be included In 2005 Volume IV appeared devoted to Rembrandt's self portraits in painting etching and drawing Volume V consists of a catalogue and analysis of the so called small scale history and genre paintings That theme was chosen because this type of complex work shows a variety of full length protagonists acting in different narrative settings For this reason in the 17th century painting etching or drawing biblical and mythological scenes was looked upon as an artist's greatest challenge The choice of this theme proved to be highly fruitful in several ways Small scale history pieces reveal Rembrandt's artistic ambitions most clearly They also offer the authors a much more accurate view of the daily routine in Rembrandt's studio his apprentices mostly copied this type of work or used it as a starting point for their own As a result it was easier to distinguish the works by the master himself from those of his pupils All aspects of the skills necessary to create a pictorial illusion play a part in the creation of small figured history paintings These aspects were referred to as the basis of the noble art of painting in Rembrandt's days Two seventeenth century painter theoreticians discussed these principles systematically in two books which up till now have only sporadically been consulted in the context of 17th century studio practice Karel van Mander wrote his *Grond der edel vry schilder const* Basis of the Art of Painting in 1604 and Samuel van Hoogstraten produced his *Inleyding tot de hooge schoole der schilder konst* Academy of Painting in 1678 Van Hoogstraten was a pupil of Rembrandt between 1642 and 48 Comparing the two books and considering them in relation to Rembrandt's oeuvre gradually reveals his original views on painting and how these had developed during his career Thus the authors of this new Volume of *A Corpus* have gained an unexpected and profound insight into Rembrandt's ideas and approach to his art The basic aspects of painting included the following topics function and methods of drawing human proportions various positions poses and gestures of figures ways of arranging a scene's protagonists in a composition facial expressions of a variety of emotions light shadows and reflected light landscape and animals draperies and articles of clothing methods of painting and various characteristics and uses of colours The way these basic aspects were selected and dealt with presumed that the more practical side to the art of painting would be learned by the apprentice in the daily routine of his master's studio With the development of art history in the nineteenth century the basic aspects of the art of painting listed above acquired the vague label of style However the seventeenth century categorization of the basic aspects provides a much more acute means of probing the views and criteria for judging a painting by Rembrandt and his contemporaries than

the concept of style Volume V in the series A Corpus of Rembrandt Paintings breaks new ground from the point of view of art history not only in its approach to Rembrandt as an artist but more particularly to his thinking about painting Moreover a detailed comparison of Rembrandt's works and those by his apprentices who based their works on his led to a profound and detailed understanding of Rembrandt's views on pictorial quality In art historical literature quality usually does not feature prominently since it is regarded as being too subjective This comparative approach together with the analysis of seventeenth century categories of thought about painting have given the research on Rembrandt a new impetus at the same time allowing us to see more clearly through seventeenth century eyes That is why the new volume of the Corpus is an important publication not only for art historians but also for all who want to fully enjoy the numerous works of art that date back to the Dutch Golden Age now scattered in museums around the world
