The Black Ships Jonathon Fairall, 2025-01-03 Three men, three voyages, one century. This book is about the beginning of the modern global order which was created around 1500 in one of the most marginal countries in Europe. The Black Ships were the engines of the voyages of discovery which linked Europe to Asia for the first time. The brutal men who sailed these ships were excited by neither the search for unknown lands nor by scientific curiosity but by the deadly contest between Christian and Muslim that consumed Europe for nearly a thousand years. The men of Portugal determined that they would engage in the greatest and final crusade to rid the world of Islam. To do so, they forged new technologies that enabled them to cross oceans. They never quite achieved their aims. But they changed the world.

Fictions of the Black Atlantic in American Foundational Literature Gesa Mackenthun, 2004-08-02 This book is a significant contribution to existing research on the themes of race and slavery in the founding literature of the United States. It extends the boundaries of existing research by locating race and slavery within a transnational and oceanic framework. The author applies critical concepts developed within postcolonial theory to American texts written between the national emergence of the United States and the Civil War in order to uncover metaphors of the colonial and imperial unconscious in America's foundational writing. The book analyses the writings of canonized authors such as Charles Brockden Brown, James Fenimore Cooper, Edgar Allan Poe and Herman Melville alongside those of lesser-known writers like Olaudah Equiano, Royall Tyler, Frederick Douglass, Martin Delany and Maxwell Philip and situates them within the colonial and postcolonial context of the slave-based economic system of the Black Atlantic. While placing the transatlantic slave trade on the map of American Studies and viewing it in conjunction with American imperial ambitions in the Pacific, *Fictions of the Black Atlantic in American Foundational Literature* also adds a historical dimension to present discussions about the ambivalence of postcoloniality.

Night of Delusions Keith Laumer, 2016-03-24 It starts out as a weird but seemingly understandable assignment: bodyguarding a mad politician whose keepers have decided to let him escape as a sort of reality therapy. But to understand the Senator Florin, one must enter the Machine; a reality will never be the same. From now on, he's a Knight of Delusions.

I Am Soldier of Fortune Robert K. Brown, Vann Carpenter, 2020-01-10 The founder of *Soldier of Fortune* magazine tells his own story from Green Beret to trailblazing combat zone journalist. In 1975, former Green Beret Robert K. Brown found his true calling as the publisher of an upstart magazine called *Soldier of Fortune*. Brown pushed the bounds of journalism with his untamed brand of reporting: a camera in one hand, a gun in the other. He quickly established a worldwide community as his notorious magazine drew the avid attention of action seekers across the globe. Brown and his combat journalists embedded themselves with anti-Communist guerillas and freedom fighters, often training and fighting alongside the groups they reported on. Brown himself accompanied teams to work and fight with the Rhodesians, the Afghans,

during the Afghan Russo war Christian Phalange in Lebanon ethnic minority Karens in Burma the ethnic tribes fighting the Communist government of Laos the army of El Salvador and the armed forces of struggling Croatia Brown also sent medical teams to Burma Guatemala the Dominican Republic Afghanistan Bosnia El Salvador and Nicaragua as well as Peru after a devastating earthquake In I Am Soldier of Fortune the exploits of Brown and his veteran teams are revealed for the first time in all their gonzo glory even as the US military public and polite diplomatic society sometimes shunned their endeavors
